Columbus, Ohio | 718-668-4684 | Kalifakk15@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Results-driven Agile Business Analyst with expertise in workforce logistics, media & advertising technology, and SaaS-based platform optimization. Skilled in gathering business requirements, optimizing workflows, and improving ad performance tracking to drive operational efficiency and cost savings. Adept at collaborating with cross-functional teams, leading Agile ceremonies, and supporting system integrations using tools like JIRA and Miro.

PROFESSIONAL EXPERIENCE

Vidhive - Optimized Agile workflows, improving sprint delivery by 20%
Agile Business Analyst | Scrum Master

Remote
Nov 2024- Present

- Facilitated Agile ceremonies, including daily stand-ups, sprint planning, retrospectives, and sprint reviews, ensuring seamless collaboration and iterative improvements.
- Managed backlog refinement and sprint planning in JIRA, ensuring clear prioritization of user stories and alignment with business objectives.
- Developed wireframes and process flow diagrams in Miro, helping stakeholders visualize feature enhancements and system improvements.
- Led UAT (User Acceptance Testing), creating test cases and working with stakeholders to validate new features before deployment.
- Worked cross-functionally to resolve conflicts between business and technical teams, ensuring alignment on product scope and feature delivery.
- Coached teams on Agile best practices, promoting continuous improvement and improving sprint velocity.
- Removed blockers and impediments, acting as a servant leader to maintain team efficiency and workflow continuity.
- Translated stakeholder requirements into actionable user stories and acceptance criteria, ensuring seamless handoffs between business and development teams.

LodgeLink - Enhanced scheduling and chat, cutting costs by 15%
Business Analyst

Remote
Nov 2022 - Oct. 2024

- Gathered and documented business requirements for the bulk scheduling feature, translating stakeholder needs into clear technical specifications for development teams.
- Developed detailed process flow diagrams and use cases to ensure smooth implementation of the Chat feature, enhancing real-time communication and reducing accommodation costs by 15%.
- Conducted competitive and cost-benefit analyses, optimizing scheduling processes to help customers reduce accommodation costs and improve operational efficiency.
- Collaborated closely with cross-functional teams, including developers, product managers, and external vendors, to ensure successful feature rollouts.

- Led UAT testing and defect resolution, working with stakeholders to validate scheduling and chat functionalities before deployment.
- Created and maintained product requirement documents (PRDs) to support ongoing improvements and feature enhancements.

Terraboost Media

Business Analyst

Jan 2022 - Sept 2022

- Gathered and documented business requirements for advertising platform enhancements, ensuring seamless integration of campaign tracking and performance analytics.
- Analyzed ad campaign data to identify trends, optimize targeting strategies, and improve ROI for clients.
- Collaborated with cross-functional teams, including marketing, sales, and engineering, to enhance the digital advertising platform and improve operational efficiency.
- Supported system integrations, working with developers to enhance third-party ad tech integrations, such as DSPs (Demand-Side Platforms) and CRM.
