EDUCATION

Christopher Newport University (CNU)

Master of Science, Computer Science

August 2023 – December 2025

Thesis: Autonomous Recognition and Localization of Building Elements Using Computer Vision and UAVs

Published Paper: Drones in Education: A Comparative Analysis of Learning-Focused Platforms:

<https://doi.org/10.20944/preprints202503.0524.v1>

Bachelor of Science, Information Science

August 2020 – May 2023

Concentration in Data Analytics and Big Data

Dean's List every semester

Capstone Project: Analyzing A.I. military decision-making capabilities

PROFESSIONAL EXPERIENCE

Christopher Newport University (CNU)

Graduate Teaching Assistant

August 2023 – May 2025

- Instructed 12, one-credit computer science lab courses, over the span of 4 semesters: Intro to Python Programming (CPSC 150L) and Programming for Data Manipulation (CPSC 250L)
 - Hosted office hours to offer additional support and guidance to students struggling to complete assignments
 - Managed grading platform for lab courses, providing scores and feedback on lab assignments, projects, and exams
 - Served as a liaison between students and faculty, discussing areas of improvement and where to focus learning objectives, contributing to the department's success
 - Received overwhelmingly positive reviews via anonymous end of semester student evaluations
-

RELEVANT COURSEWORK

Big Data Technologies, Neural Networks & Machine Learning, Artificial Intelligence, Data Analytics, Robotics, Database Management Systems, Programming for Data Manipulation, Information Systems Analysis & Design/Implementation, Data Communication Systems, Network Implementation & Administration, Programming for Applications, Applied Business Statistics, Applied Matrix Techniques, Calculus, Software Packages

PROFICIENCIES

Programming: Python, R, SQL, Java

Libraries/Frameworks: Pandas, Matplotlib, SciKit-Learn, TensorFlow, Keras, Numpy

Tools/Technologies: Tableau, Microsoft Excel, Jupyter, Linux, Git, PowerBI, SAS

ACTIVITIES

CNU Men's Lacrosse

2023 College Sports Communicators Academic All-District Team

Fall 2022 Academic Team Achiever

Upsilon Pi Epsilon

Member of National Honor Society for computing and informatics, backed by Institute of Electrical and Electronics Engineers (IEEE) and Association for Computing Machinery (ACM)

American Foundation for Suicide Prevention

Helped coordinate events advocating for mental health awareness and initiatives
