Education

University of Maryland, Baltimore County

Catonsville, MD

Bachelor of Arts, Health Administration and Policy: Public Health

Design Lab

UX Design Certification

Experience

Business Operations Analyst

McLean, VA

TheIncLab

November 2025 – PRESENT

- Coordinated meetings across multiple department heads and C-Suite executives.
- Maintained project management initiatives by tracking progress and deliverables in Jira, ensuring alignment on priorities, deadlines, and deliverables.
- Implemented centralized internal documentation in Confluence, establishing the department's first structured knowledge base and reducing information gaps between internal teams.
- Oversee negotiation with multiple external vendors and summarizing results to Head of Operations.

Program Assistant

Arlington, VA

Department of State [Global Language Center] – Secret Clearance

August 2022 – October 2025

- Automated workflows using Power Automate and integrated Microsoft Forms to eliminate manual processes, and build a historical student database on Excel to consolidate data and enhance operational visibility.
- Administered a portfolio of 120+ training programs serving over 2000 participants, driving policy compliance, operational efficiency, and seamless virtual/in-person event delivery.
- Trained and mentored a 7 member Administrative Team by providing guidance on core responsibilities and building proficiency in daily tasks, which strengthened overall team performance and reduced resolution times for technical and procedural issues by more than 50%.
- Managed student data pipelines from Student Information Systems (Salesforce), analyzing program performance to identify key trends and drive improvements in course content and policy.
- Collaborated cross-functionally with senior management, trainers, and learners to design and deliver high-impact courses aligned with organizational objectives.

UX Designer

Remote

National Collegiate Breaking Association

February 2023 – June 2023

- Spearheaded the full design and launch of the organization's first responsive website.
- Led discovery sessions and stakeholder interviews to align user needs with business goals, translating insights into clear, intuitive layouts and navigation.
- Built and implemented scalable information architecture and user flows, enhancing engagement and self-service functionality.
- Applied iterative UX processes, including testing and refinement to ensure seamless user experience across devices.

Public Health Associate

Washington, DC

American University, COVID Clinic

December 2021 – April 2022

- Administered COVID-19 PCR tests to over 1,000 students and faculty weekly, ensuring compliance with university protocols.
- Addressed inquiries related to COVID-19 procedures, ensuring customer-focused service while demonstrating strong client service skills and responsiveness to community needs.
- Reported and analyzed data from 300–1,000 tests daily, tracking positivity rates and providing insights to support the university's public health strategy.
- Coordinated specimen pickups and restocking of testing supplies in collaboration with university transportation services, effectively managing logistics and operational efficiency.
