

CHRISTOPHER CERVANTES

DATA ANALYST

Celina, TX, United States | ccervantes0309@gmail.com | (714) 553 – 0614

PROFILE

Outcome driven data analyst with 4+ years of experience optimizing marketing, procurement, and operations through Power BI dashboard development, process automation, and data driven insights. Recognized for delivering actionable reports that enable cross-functional teams to achieve operational efficiency and make informed business decisions. Skilled in SQL to transform complex data into impactful insights that drive strategy, streamline processes, and ensure accurate reporting.

PROFESSIONAL EXPERIENCE

Data Analyst

Worldpay | Cincinnati, OH | August 2024 - Present

- **Reporting Ownership:** Developed and owned all reporting for the procurement organization. Responsible for delivering accurate and impactful reports to stakeholders and senior leadership to drive operational efficiency and continuous improvement initiatives.
- **Dashboard Development:** Designed and implemented several Power BI dashboards to visualize trends, monitor KPIs, and promote real-time data visibility for the Contractor Management Office, Procurement Operations, and Strategic Sourcing teams.
- **Executive Reporting:** Produced concise, weekly reports for company-wide senior leadership, providing status updates on high-value deals, along with volumes, lead times, and contract lifecycle metrics to improve visibility for items in the procurement pipeline.
- **Data Analysis:** Leveraged Excel lookup functions including VLOOKUP/XLOOKUP, pivot tables, and power query to clean, transform, and analyze contract data daily.
- **Database Administration:** Developed and owned the centralized vendor master database, managing vendor records and contract data for the entire company. Defined tables and relationships using DDL syntax, maintaining data integrity through use of primary and foreign keys.
- **Process Optimization:** Reduced cycle time for PR/PO requests by developing a Power Automate workflow that captured urgent PR requests from Outlook to Excel, ensuring timely PR/PO processing.
- **Cross Functional Collaboration:** Worked closely with compliance, legal, and finance to maintain SOX compliance through quarterly commitment reporting and enabling audit readiness.
- **Savings Validation:** Collaborated with Finance weekly to capture and report procurement savings to leadership, ensuring accurate classification of savings types such as cost avoidance, and savings to baseline.
- **Systems Administration:** Partnered with procurements product owner to regularly enhance Raindrop, the procurement platform (10,000+ users) to drive data accuracy, reliable reporting through API integrations with Power BI.
- **Merger and Acquisitions:** Actively contribute to merger and acquisition reporting initiatives following Worldpay's acquisition by Global Payments, managing integration related data requests.

Data Analyst

Kingdom Music | Abilene, TX | May 2023 – August 2024

- **Cost Optimization:** Analyzed clothing and apparel merchandise to identify top cost drivers, supporting pricing decisions and providing recommendations to optimize margins across product lines.

- **Exploratory Data Analysis:** Enabled informed decision making by performing EDA in Python to generate summary statistics, uncover trends in top merchandise sales, analyze average sales, and identify key correlations.
- **Dashboard Development:** Created Power BI dashboards to visualize key metrics, product performance, and marketing engagement, driving data driven strategy and optimization.
- **Inventory & Demand Planning:** Analyzed sales patterns and inventory levels to improve turnover and reduce understock to support merchandise planning.
- **Customer Segmentation & Trend Analysis:** Analyzed purchase behavior and seasonal merchandise trends to develop strategic marketing campaigns and tailored social media promotions.
- **Ad-Hoc Reporting:** Pulled reports on vendor spend to support procurement negotiations.

Accounting Assistant/Quality Assurance Analyst

International Metal Source | Fullerton, CA | May 2019 – September 2020

- **Accounts Receivable:** Managed invoicing and payment collections in QuickBooks, maintaining accurate transaction records and cash flow management.
- **Bank Reconciliation:** Reconciled billing statements and ensured accuracy in customer accounts.
- **Invoice Processing:** Processed invoices to support revenue collection, resolving discrepancies to prevent service interruptions.
- **Credit Analysis:** Partnered with the credit department to evaluate customer accounts, establish credit limits, and define appropriate payment terms.
- **Financial Reporting:** Assisted with preparing monthly, quarterly, and annual financial statements and reporting packages.
- **Regulatory Compliance:** Ensured adherence to AS9100 and industry specific standards for metals, including traceability and certification documentation.
- **Quality Assurance:** Worked closely with logistics to ensure accurate shipping and receiving. Maintained a customer rejection rate of under 1% for finished products through quality checks.
