Results-driven data analyst with 3+ years of experience in data analysis, specializing in creating insightful visualizations and delivering actionable insights. Proficient in Python, SQL, Tableau, Power BI, R, and SAP, with a proven ability to optimize processes and drive data-driven decision-making through effective collaboration and problem-solving.

## EDUCATION

- **Master of Science** in Data Analytics — Webster University, St. Louis, MO - **GPA 3.85** (Graduated 2024)
- **MBA** in Human Resource Management — Babasaheb Bhimrao Ambedkar University, India (Graduated)
- **Bachelor of Science** (Mathematics) — University of Lucknow, India (Graduated)

## WORK EXPERIENCE

### Data Analyst | EmphaSystem LLC.

Sept 2024 – Present

- **Data Analysis:** Conducted **20+ exploratory data analyses (EDA)** on HR and organizational datasets using Python, and Tableau, uncovering trends and patterns that informed decision-making.
- **Data Engineering:** Built and implemented **10+ data cleaning and processing pipelines** in Python & SAS, ensuring 99% data accuracy and readiness for analysis.
- **Data Cleaning:** Resolved **95% of identified data discrepancies**, maintaining data integrity and reliability to support HR and organizational operations.
- **Reporting/Visualization:** Designed and delivered **5+ dashboards and reports**, providing actionable insights to stakeholders and enhancing strategic planning.
- **AWS Cloud:** Help manage **data storage systems** like AWS S3, ensuring secure access and organized storage solutions for HR and organizational data.
- Improved data workflows by **30%**, streamlining analytics processes and supporting continuous improvement initiatives.

### Tutor/ Trainer of Data Analytics (CRLA Certified) | Webster University

Aug 2023 – May 2024

- **Coding:** Delivered in-depth tutoring on Analytical Programming with Python, SQL-based Database, Data Warehousing, Data Mining in R, and Data analysis using Tableau and SAP, enhancing student proficiency by 20%.
- **AWS:** Utilized AWS Glue to create ETL workflows, consolidating diverse datasets (student records, faculty data, course metrics) for efficient analysis.
- **Project Collaboration & Management:** Partnered with professors to design real-time projects, managing datasets for 10+ machine learning and NLP initiatives using tools like Google Big Query for large-scale data handling.
- **Data Tracking and Reporting:** Maintained detailed records of data analysis projects and performance metrics, leveraging Google Big Query for efficient storage, tracking, and reporting.

### Administrative Officer (Data) | Sky Group of Institutions

Jan 2019 – Jan 2020

- **Data Management:** Analyzed and managed 10000+ student records, ensuring data integrity with custom ETL processes, resolved data quality issues, and secured student sensitive data from unauthorized access.
- **SQL Queries & Optimization:** Created KPI reports by writing SQL queries and Improved documentation of existing stored procedures, increasing usability and reducing troubleshooting time by 15%.
- **Power BI Reports & Dashboards:** Designed 10+ reports and dashboards like revenue analysis dashboard, etc., enhancing KPI tracking and visualization, boosting decision-making efficiency by 20%.

- **Database Normalization:** Reduced data redundancy by 40% and ensured consistency across tables, optimizing data management processes and enhancing database efficiency.

#### **Team Lead | Target Plus Pvt. Ltd.**

**Aug 2016 – Jan 2019**

- **HR Analytics:** Optimized recruitment processes, reducing processing time by 20%. Enhanced payroll accuracy, cutting errors by 15%, and streamlined employee data management for better accessibility. Analyzed compensation trends, improving employee retention by 10%.
- **Reporting & Dashboards:** Optimized Excel dashboards with advanced functions (VLOOKUPS, pivot tables), increasing accuracy by 25% and using SQL queries to enhance data insights for strategic decision-making.
- **Data Integrity & KPI Management:** Ensured data integrity across large datasets, identified key KPIs, and supported BI initiatives to drive informed decision-making.
- Partnered with cross-functional teams to deliver scalable solutions, achieving 95% client satisfaction.
- Led Agile practices as Scrum Master, improving on-time delivery through efficient project management.
- **BRD Development:** Created comprehensive Business Requirement Documents (BRDs), boosting project efficiency by 15% through clear, actionable guidelines.

### **PROJECTS**

---

#### **Traffic Crashes in Chicago Machine learning project – Python**

- Conducted EDA to identify patterns in traffic crash data and built a KNN model to predict crash damage severity with 78% accuracy.

#### **Customer Review Sentiment Analysis (NLP)**

- Developed and deployed **NLP models** using **R Shiny** and **API integration** to analyze customer reviews, delivering actionable insights that enhanced customer satisfaction and informed business strategies.

#### **Mortgage Payback analytics using Random Forest and K-means Clustering algorithms**

- Applied Random Forest and K-means clustering in R to predict payback behavior, enabling smarter financial decisions with up to 20% profit optimization.

#### **Flight Price Prediction Using Tableau and Python**

- Analyzed flight price dataset to uncover patterns and insights like the impact of seasonality on sales. Trained a regression model in Python to predict flight prices and identify key features.

#### **Gaming & Software Listing Company Customer Identification – R Machine Learning Project**

- Applied data analytics for targeted marketing and customer identification. Used predictive modeling to forecast gross profits and made recommendations to optimize targeted mail campaigns and retrain the model to improve revenue by up to 15%.

#### **HR Analytics using Tableau**

- Created **dashboards** to track **attrition rates** and **workforce demographics**, identifying key areas for HR intervention and strategic action.

### **TECHNICAL SKILLS, AND CERTIFICATION**

---

- **TOOLS:** R, R Shiny, SQL, Python (pandas, seaborn, numpy, plotly, SciKit learn), Tableau, Power BI, DAX, MS Excel, Pivot Tables, ERD Plus, JIRA, Google Big Query, Looker, ZOHO CRM, SSRS, AWS, SAS, & SAP ERP.
- **SKILLS:** Data Analysis, Data Visualization, Machine Learning, ETL, Predictive Analytics, Text Mining / NLP, Time Series, Requirement Analysis, UAT testing, Root Cause Analysis, Data Reporting, API creation, deployment, ML models, Analytical Problem Solving, SCRUM, Data Presentation, Cloud analytics.
- **DIPLOMA:** Advanced Diploma in Computer Application from ICTE.
- **CERTIFICATION:** Tableau Data Analyst/Specialist Desktop certification, AWS Cloud Essential for Business Leaders, Power BI Data Modelling with DAX, Data Analytics with Google Cloud Big query and Looker.

### **SOCIAL CONTRIBUTION/ VOLUNTEERING**

---

- Contributed to community development by teaching underprivileged children as part of the National Service Scheme (NSS). (<https://nss.gov.in/>)
