

JAMES DADSON

Fairfax VA, 22033
Phone: (302) 983-2486
Email: jamesdadson91@gmail.com

EDUCATION:

Degree: Bachelor of Science (2019)
Radford University, Radford, VA
Major: Computer Science
Concentration: Software Engineering

CERTIFICATIONS:

AWS Cloud Practitioner (2020)

WORK EXPERIENCE:

SAIC, Reston, VA [Angular Developer]

MAR 2020 – Present

- Responsible for the modernization, implementation, developing, and testing of a US Navy messaging application using the Angular 10 framework
- Enhances component-style application with MVC design pattern using JS/ES6, HTML5, CSS3 and Bootstrap
- Creates event functions for back end communication with the front end using Javascript/ES6
- Fetches data from API using asynchronous calls and HTTP requests on a micro-services infrastructure
- Participates in scrum meetings discussing progress on development work
- Debugs SonarQube error findings, cleans up code, and merges changes using Git and GitHub
- Communicates with project managers to understand use cases and develop them into features.

UNISYS FEDERAL SYSTEMS, Reston, VA [Junior Java Developer]

JUN 2019 – MAR 2020

- Fully participated in an Agile Software Development Team, on the modernization of a US Navy application using the Angular 7 framework.
- Worked with back-end developers on structuring access to data from MongoDB and other micro-services using REST API calls to display data on user interface.
- Debugged numerous stories on UI and worked with QA testers to ensure acceptance criteria had been met on reported story tickets.
- Participated in sprint planning meetings and daily Scrum meetings on detailed information about daily progress.
- Updated work-in-progress on JIRA board and merged completed work into dev environment on GitHub after code review by senior developers.
- Communicated UX/UI enhancement ideas to Project Manager and developed them into features.

SKILLS & ABILITIES:

- Over four years of Object-Oriented Programming with Java as the main language.
- Proficient user of Microsoft Visual Studio Code and the Eclipse IDE.
- Angular 10, ES6/Javascript, Typescript, Java, Bootstrap, HTML5, CSS3, AWS, Kali Linux
- Fast learner of computer languages and habitual ethical hacker.
- Great team worker.

PROJECTS:

- **YouTube Comments Bot** – Developed a bot that understands YouTube comments by ranking comments based on the positive/negative input using Python's natural language toolkit.
- **BF4 Sniffer** – Developed a GUI which takes in a Battlefield 4 player's gamer tag and gaming platform, and outputs the player's statistics including rank, skill, wins, losses, total time played, number of headshots, and longest headshot. This project was written in JavaFX and ranked top 5% in class.
