OBJECTIVES/PROFESSIONAL SUMMARY

A motivated and strong SDET with over 5 years of experience in software testing and automated test techniques, specializing in web-based and mobile applications. Experience working in an Agile-Scrum environment. Involved in Regression, Smoke and end-to-end testing for UI, Database and API layers of the application. Using different manual and automation testing tools like Java, JUnit, Cucumber BDD, SQL, Selenium, RestAssured and Postman. Proficient in integrating Jenkins for CI/CD to streamline the testing process. Seeking a new project where I can apply my expertise and further develop skills as an SDET with the aim of gaining more experience.

EXPERIENCE

QA Automation Engineer

Walgreens

📅 01/2022 - Present 📍 Remote

Walgreens is a well-known pharmacy and retail chain in the United States.

- Conduct testing of Vaccination Appointment Scheduling system.
- Perform and evaluate **manual tests**.
- Enhance **Cucumber BDD** Framework with **Java**, **Selenium**, and **JUnit** for front-end automation testing, improving overall product quality.
- Work in an **Agile Scrum** approach, actively participating in all ceremonies, contributing to a collaborative development environment.
- Conduct thorough **API** testing using **Rest Assured** and **Postman** to ensure smooth system integration.
- Perform database testing with writing complicated queries with **SQL** and using **JDBC** as a library for automation of our **Oracle** relational database to improve data integrity across the platform.
- Analyze user stories based on acceptance criteria and user requirements, ensuring comprehensive test coverage.
- Execute **functional**, **regression**, and **smoke testing** using **Jenkins CICD** pipeline for a significant reduction in software bugs and improved system performance.
- Performed **end-to-end** testing, covering all critical functionalities from user interactions for UX/UI, API and backend processing.
- Improved test automation framework efficiency through enhanced **collaboration with developers**.

Quality Assurance Engineer

AMN Health

📅 07/2019 - 12/2021 📍 Remote

AMN Health specializes in healthcare staffing and workforce solutions.

- Developed and maintained **Automated Testing Frameworks** using **Java** and **Selenium WebDriver**, enhancing the efficiency and effectiveness of testing processes.
- Designed and implemented comprehensive **Test Plans and Test Cases**, ensuring thorough coverage and robust testing of healthcare workforce management features.
- Conducted **Functional Testing** to validate the core functionalities of the application, including staffing, scheduling, and compliance management.
- Leveraged **BDD practices** with **Cucumber** to create **Gherkin** scripts, facilitating clear communication of testing scenarios between technical and non-technical stakeholders.
- Performed **Database Testing** using **SQL** and **JDBC** to ensure the integrity and accuracy of data in critical areas like staffing compliance and credential management.
- Managed version control and collaborated on development using **Git** and **GitHub**, ensuring efficient code management and integration.

TECHNICAL SKILLS

Test Methodologies

Waterfall, Agile/Scrum, SDLC, STLC

Test Build & Integration Tools

Maven, Jenkins, JDBC, API Web, AWS Cloud Services, REST Assured with Java

Testing Tools

Selenium WebDriver, TestNG, Appium, Selenium Grid, JUnit, Cucumber, REST Assured, Gherkin, Jira, Apache POI, Postman

Frameworks

Data-Driven (DDT), Behavior Driven Development (BDD), Hybrid, Page Object Model (POM)

UI Technologies

JavaScript

Programming Languages

Java

Markup Languages

HTML, XML

Databases

Oracle, SQL Server

Browsers

Safari, Google Chrome, Mozilla Firefox, Edge

Operating Systems

macOS, Windows, Linux

MS Office Tools

Outlook, Word, Excel, PowerPoint

Defect Tracking Tool

Jira, Jira Xray

Version Control

Git, GitHub

Special Skills

Typing speed 52+ wpm

EDUCATION

Bachelor of Arts

Mimar Sinan Fine Arts University

📍 Istanbul, Turkey
