PROFILE

Analytically driven master's student in Business Analytics, poised to contribute comprehensive data-driven insights and strategic problem-solving skills. Eager to leverage a strong academic foundation and hands-on experience in data analysis, financial modeling, consulting, and data visualization to drive informed decisions and deliver impactful solutions for clients.

EDUCATION

University of Massachusetts Amherst, Isenberg School of Management

Master of Science in Business Analytics | GPA: 4.00

Candidate, August 2024

- *Relevant coursework:* Business Intelligence & Analytics; Data Management for Business Leaders; Business Application Development (Python); Statistics for Business; Leadership & Organizational Behavior; Financial Management; Data Science for Business; Project Management; Data Mining for Business

Bachelor of Technology in Mechatronics Engineering

May 2020

EXPERIENCE

SS Industries Private Limited

Coimbatore, India

Consultant– Business Strategy and Analytics

Nov 2022-April 2023

- Spearheaded the development and execution of strategic initiatives, collaborating with senior leadership, to enhance business development and sales programs. Implemented key changes and improvements aligning with the organization's strategic objectives.
- Designed and executed strategic and tactical sales plans, ensuring forward planning to meet key objectives, including market entry strategies and business prioritization.
- Led cross-functional teams to coordinate innovative marketing strategies, resulting in the accomplishment of objectives and bolstering long-term profitability.
- Conducted extensive market research, analyzing product pricing, ratings, and performance globally. Developed detailed comparison spreadsheets to evaluate competitors, aiding in strategic decision-making.
- Demonstrated strong financial acumen by optimizing product turns, effectively managing budgets, and controlling overhead. Achieved significant increases in profit margins through rigorous cost management.

Think and Learn Private Limited, Byju's

Chennai, India

Business Analyst

Oct 2020-Nov 2022

- Analyzed complex datasets to extract actionable insights, driving strategic decision-making and informing business development strategies with a keen focus on market trends, competitor analyses, and consumer behavior.
- Collaborated cross-functionally to streamline data processes, optimizing workflows, and enhancing operational efficiency through the implementation of data-driven solutions, resulting in tangible cost savings and improved overall performance.
- Utilized advanced analytical tools and methodologies to conduct thorough market research, pricing analyses, and performance evaluations, facilitating the development of innovative marketing strategies and ensuring competitive product positioning in global markets.
- Produced comprehensive reports and presentations to communicate findings effectively, fostering meaningful relationships with key stakeholders, and enabling informed decision-making to adapt swiftly to evolving market dynamics.

PROJECTS

Data Science for Business: Python and R

Fall 2023

- Spearheaded a transformative data science initiative to automate the loan eligibility process, leveraging historical customer data.
- Developed and deployed predictive models, including Decision Tree, K-NN, SVM, Logistic Regression, and Random Forest, optimizing precision and accuracy to minimize false positives.
- Successfully reduced credit risk, allowing Easy House Finance to make informed lending decisions, save time, and focus on serving eligible customers efficiently.
- Implemented strategic measures, emphasizing financial security by preventing the approval of loans to ineligible applicants, ultimately safeguarding the company from potential losses.

Business Intelligence & Analytics: Tableau

Summer 2023

- Transformed CSV files into Tableau's native format through meticulous data preparation, involving renaming, deletion, field calculations, and strategic reformatting.
- Applied analytical prowess to uncover trends in beverage sales across diverse U.S. markets, scrutinizing major and minor market dynamics. Meticulously compared sales against COGS, Revenue, Inventory, Profit, and Total Investments, providing a holistic view of beverage performance.

- Pioneered the art of visualization by employing principles such as pre-attentive processing, optimizing data-ink ratio, and embracing the elegance of simplicity to convey findings with utmost clarity and brevity.
- Brought the data to life within Tableau's dynamic ecosystem, creating a comprehensive dashboard that utilized scatterplots, pie charts, bullet graphs, and other visually engaging elements. Presented these discoveries effectively through a compelling PowerPoint presentation to peers.

CLUBS AND ORGANISATIONS

Business Analytics Club:

- Focuses on topic related to business analytics strategy, ethics and integration and helped participants build basic analytical and enhance strategic decision-making abilities.

Women of Isenberg Conference -Community Council Member:

- Led strategic decisions and operations, specializing in innovative marketing and analysis as a Community Council Member. Integral part of Women of Isenberg, dedicated to empowering leadership and building a vibrant community.
