EDUCATION

The University of Texas at Dallas

M.S. Business Analytics

May 2025

GPA 3.75

Jawaharlal Nehru Technological University, Anantapur

Bachelor of Engineering in Mechanical

Jul 2021

GPA 3.25

SKILLS

Programming: Python, SQL, R.

Frameworks: Apache Spark, Hadoop, Hive, Impala, Apache Airflow.

Tools: Flume, Sqoop, Power-Bi, Tableau, JIRA, GitHub.

Databases: MySQL, MongoDB, PostgreSQL.

Cloud Platforms: Snowflake, **AWS:** EC2, Lambda, RDS, S3, Glue, Athena, Redshift, IAM, EMR. **Azure:** Blob Storage, ADLS (Azure Data Lake Storage), ADF (Azure Data Factory), Synapse.

WORK EXPERIENCE

Tata Consultancy Services (TCS), Hyderabad, India

Data Engineer

Aug 2021 – Jul2023

- Led the development and maintenance of robust Spark ETL pipelines within Azure Databricks, effectively handling extensive datasets sourced from SAP eHANA, Teradata, and Oracle DB, resulting in a 40% increase in data throughput.
- Enhanced pipeline operations by implementing and optimizing Azure Data Factory triggers, resulting in a notable 25% reduction in processing times.
- Identified and resolved complex issues such as data duplication and schema mismatches within pipelines, contributing to a 20% improvement in data processing accuracy and a 25% reduction in data-related errors.
- Developed practical solutions to address challenges associated with slowly changing dimensions, resulting in a 15% enhancement in data handling efficiency.
- Designed and deployed interactive Power BI dashboards utilizing Snowflake-stored data, facilitating critical insights and contributing to a 20% improvement in decision-making processes.

Ardem Data Services, Hyderabad, India

Data Analyst

Apr 2021 – Jul 2021

- Collected the raw data and verified the data from data warehouse and reported the defects and errors to the client with help of Microsoft Excel.
- Created multiple data pipelines in Azure Data Factory extensively with activities and worked on different file formats like PDF, XML, CSV, JSON. Converted the files from different file formats to required one.
- Queried and Stored the employee, assets data across all geolocations into Azure Data Lake.

ACADEMIC PROJECT

Trucks Data Analysis: (Hadoop Technologies)

Jan 2024 – Feb 2024

- Loaded the huge amount of .CSV data into HDFS using VMWare Linux Commands on Cloudera data platform.
- Used Cloudera ODBC Driver for Impala to query and retrieve the data which is in Apache Hadoop/Distributed Systems.
- Created dashboard to answer the two complicated business questions regarding the Truck Development using Tableau and R.

Kimbell STAR schema Case Study: (Snowflake)

Sep 2023 – Nov 2023

- Designed Data Warehouse with Facts and Dimension in Snowflake.
- Designed attributes, facts, metrics and attribute relations in Accounting Bus Matrix.
- Transformed the stored data to fit an enterprise level using complex queries and answered business questions.

Banking System: (ERD Tool, PostgreSQL Database)

Sep 2023 – Nov 2023

- Designed a comprehensive ERD for a banking system to model relationships between entities, Translated the ERD into a relational database schema, identifying primary keys, foreign keys, and establishing normalization to ensure data integrity.
- Utilized PostgreSQL features such as constraints and indexes to enhance data quality and query performance. Developed efficient ETL (Extract, Transform, Load) processes to import and load large volumes of banking data into the PostgreSQL.
- Created complex SQL queries to retrieve and analyze data for various banking scenarios, including account balances, transaction histories, and customer profiles. Implemented subqueries, joins, Case Statements and aggregations to extract meaningful insights from the database.

AWARD, LEADERSHIP EXPERIENCE & ORGANIZATIONS

Tata Consultancy Services, Contextual Master

Jun 2022 & Jul 2023

- Improved customer satisfaction score from 87% to 100% for 2 consecutive years, the highest recorded in Assurance level.
- Achieved the highest award possible, FY23 Contextual Master, earned by only 2% of employees across Assurance portfolio.

Founder of Food Distribution

Dec 2019 – Jul 2021

- Founded and led Food Distribution, mobilizing and guiding a team of 15 students at Vivekananda Study Circle, GPREC
- Helped 1000+ orphanages through this Food Distribution team with 100% timelessly and productivity.

CERTIFICATIONS

- Power Platform Fundamentals – **Microsoft**
- IBM Introduction to Data Engineering – **IBM**

Azure Cloud Fundamentals – **Microsoft**
SQL Intermediate – **Hacker Rank**

ADDITIONAL INFORMATION

Eligibility: VISA, Eligible to work in the U.S. for jobs and internships with no restrictions up to 36 months.

Languages: Hindi, Telugu.
