SQL DEVELOPER

Claims Systems • Data Validation • Root-Cause Resolution

Professional Summary

Detail-focused SQL Developer with over 5 years of experience in the health insurance industry, specializing in claims systems testing, backend validation, and data auditing. Proven track record of building a custom SQL script library used to validate benefit logic, contract pricing, and provider linkage across 20+ Medicaid and Medicare state programs. Skilled in identifying discrepancies in QNXT claims systems, reducing critical system failures, and ensuring clean claim adjudication. Trusted to deliver high-volume SQL validations with 98% QA accuracy, <3-day TAT, and over 60 completed test tickets/month.

Key Accomplishments

-  35% reduction in UAT test failures by building SQL scripts to detect pricing mismatches, incorrect accumulators, and configuration gaps across production vs. development environments.

- 🚀 40% improvement in regression cycle efficiency by automating 100+ recurring SQL validations per month, saving ~15 hours/week of manual QA work.
 - 💰 \$75,000+ recovered in underbilled claims by auditing fee tables and contract IDs using SQL during billing reconciliation audits.
 - 📊 Maintained a 98% quality control audit score across all testing outputs while managing 60+ monthly test cases.
-

Core Strengths

- SQL Development (T-SQL, Joins, CASE, Subqueries, Views)
 - QNXT Claims Configuration: CPT/HCPCS, DRG, Contracts, Accumulators
 - Claims Adjudication Testing | Medicaid & Medicare Compliance
 - Forms: EOBs, UB-04, CMS-1500 | Coding: CPT, HCPCS, ICD
 - Root-Cause Resolution | UAT & Regression Automation | Agile
 - Tools: SQL Server, SSMS, Access, Excel, BMC Remedy
 - Claims Data Analysis | Backend QA | Provider/Contract Mapping
-

Professional Experience

System Testing Specialist (SQL-Focused)

Aetna Inc. | Sep 2022 – Present

- Created and maintained a SQL script library (FindCPTCode, FeeTableAnalysis, FindProviderByContractID, etc.) used to validate claims logic across 20+ Medicaid/Medicare state programs.
- Executed 100+ SQL validations monthly, identifying discrepancies in CPT pricing, benefit accumulators, provider mappings, and DRG rules.
- Delivered test cycles with <3-day turnaround, consistently surpassing KPIs: 60+ production points/month and 98% QA audit scores.
- Partnered with dev and config teams to align logic between payer policy and claims system behavior, reducing deployment errors by 35%.

Patient Billing Resolution Specialist

Coram Home Specialty Infusion | Dec 2020 – Sep 2022

- Investigated insurance rejections and adjusted CPT/HCPCS coding errors across 300+ claim cases/month, achieving a 96% first-touch resolution rate.
- Reduced aged receivables by 10% by tracking claim aging trends and correcting root coding mismatches.
- Trained 5+ billing team members, leading to a 15% reduction in team-wide error rates.

Line Haul Billing Account Representative

Swift Transportation | Oct 2019 – Oct 2020

- Queried contracts and rates to process 100–150 invoices/day with 99% accuracy, supporting \$500K+ monthly revenue flow.
- Identified underbilling patterns using SQL, resulting in \$75K+ recovered through retroactive corrections and dispute resolution.

Education

B.S. Business Management – Grand Canyon University

A.A.S. Applied Science – Estrella Mountain Community College

Summary of Claims System Knowledge

- Validated claims payment logic using QNXT: CPT/HCPCS pricing, DRG logic, provider contract rules, and accumulators.
- Audited and corrected backend claim logic across Medicaid and commercial plans, contributing to 98% system readiness at go-live.
- Interpreted EOBs, CMS-1500, UB-04s to resolve billing and adjudication issues in collaboration with billing, provider ops, and dev teams.
