SUMMARY:

Results-driven Business Analyst with over 4 years of experience driving data analysis, process improvements, and business intelligence solutions across diverse industries, including insurance, fintech, and healthcare. Adept at delivering impactful solutions by leveraging tools like SQL, Power BI, and Salesforce while collaborating with cross-functional teams. Proven track record in reducing inefficiencies, optimizing workflows, and achieving business goals through predictive analytics, financial reporting, and stakeholder engagement.

SKILLS:

- **Business Analysis & Documentation:** BRD, FRD, Requirements Elicitation, UAT, Change Management
- **Data Analysis & Reporting:** SQL, Tableau, Power BI, P&L Analysis, Trend Reports, KPI Dashboards
- **Project Management:** Agile, Waterfall, Jira, Confluence, Process Flow Diagrams, Status Reports
- **Technical Expertise:** Salesforce, Technical Writing, Microsoft Excel, Programming (Python, R, SAS)
- **Soft Skills:** Analytical Thinking, Problem-Solving, Organizational Skills, Leadership, Communication, Stakeholder Engagement.

EXPERIENCE:

Bussiness Analyst – Lemonade Inc., New York

Feb 2024 - Current

- Created comprehensive process flow diagrams, system designs, data mapping, user flows, use cases, UI/UX screens, and flowcharts using **Lucidchart**, streamlining communication and providing clear, actionable guidance for developers and testers to ensure alignment with project requirements and timelines.
- Developed and implemented **Power BI dashboards** to visualize operational **KPIs** and metrics, integrating **Salesforce** data to enhance real-time analytics and provide actionable insights.
- Documented business and technical requirements in **BRD** and **FRD**, leveraging Salesforce capabilities to align with stakeholder objectives and streamline **CRM-related processes**.
- Conducted **user acceptance testing (UAT)** for claims automation tools, ensuring **100%** compliance with company and regulatory standards.
- Executed data extraction and analysis using advanced **SQL**, achieving a **15%** improvement in reporting accuracy to support data-driven strategies.
- Conducted **P&L trend** analysis and budget reporting, improving financial insights for key decision-making.

Business Analyst – ICICI Lombard Insurance Ltd., India

Jul 2019 - May 2023

- Authored detailed technical documentation and user manuals for system implementations, facilitating clear communication and alignment with external stakeholders and ensuring seamless project handovers.
- Conducted comprehensive **loyalty campaign analysis**, driving a **15%** increase in customer retention rates.
- Analyzed and optimized insurance claim settlement processes, reducing the average claim lifecycle by **20%** using **SQL** and workflow improvements.
- Managed process improvements for insurance claims workflows, reducing claim lifecycle times by **10%**.
- Led cross-functional **UAT** for an underwriting tool, improving accuracy in policy pricing by **20%**.
- Authored and implemented policies and training materials for regional offices, ensuring seamless adoption of new systems.
- Designed and delivered interactive dashboards for customer segmentation analysis, resulting in a **12%** uptick in targeted sales efficiency.

Data Analyst intern – Velox Group, India

Jun 2018 - May 2019

- Designed a **predictive risk assessment model** for microinsurance claims, resulting in a **15%** improvement in claim approval efficiency.
- Led feature selection and analysis using **PCA**, enabling a **25%** reduction in dataset complexity without sacrificing model performance.
- Fine-tuned machine learning algorithms, including **Random Forest** and **Gradient Boosting**, to reduce false positives by **15%** and improve threat detection accuracy by 25%.
- Developed and implemented data models to assess insurance claim risks, improving claim approval efficiency by **15%** through **SQL** and **predictive analytics**.

EDUCATION:

Northwood University, MI

May 2023 - May 2024

Master of Science in Business Analytics

GPA - 3.70

Gujarat Technological University, India

Aug 2014 - May 2018

Bachelor of Engineering in Information Technology

GPA - 3.50

Academic Projects: SPOTIFY DATA ANALYSIS

- Built a robust relational database using SQL to manage and organize 50,000+ Spotify track records, ensuring seamless data access and scalability. Executed advanced SQL queries to calculate and compare key performance metrics, such as average danceability, energy, and popularity, across multiple genres and artists.
- Applied statistical analysis techniques to identify anomalies and outliers, providing valuable insights into niche music preferences for targeted campaigns.
