

SUMMARY

Software Development Engineer with 5+ years of experience in building web applications, RESTful APIs, and microservices. I am skilled in cloud platforms (AWS, GCP, Azure), backend development, and front-end frameworks like React.js and Angular. Experienced in CI/CD automation, Kafka, Redis, and Kubernetes for efficient system deployment.

TECHNICAL SKILLS

- **Programming & Development:** Java (JDK 8, 11, 17), Python, C, C++, JavaScript, TypeScript, React.js, Angular, HTML5, CSS3, Bootstrap, Material-UI, Spring Boot, Spring MVC, Hibernate, JPA, RESTful APIs, GraphQL, WebSockets, Microservices, Node.js, J2EE (Servlets, JSP, JSF, JavaBeans)
- **Cloud, DevOps & Infrastructure:** AWS (EC2, S3, Lambda, API Gateway, IAM, Kinesis), Google Cloud (BigQuery, Cloud Composer), Azure, Docker, Kubernetes, Terraform, Ansible, Jenkins, GitHub Actions, Shell Scripting, Maven, Gradle
- **Databases & Messaging:** PostgreSQL, MySQL, DynamoDB, MongoDB, Redis, Elasticsearch, Apache Kafka, RabbitMQ, Zookeeper
- **Testing, Security & Monitoring:** JUnit, Mockito, Selenium, Cypress, Postman, API Testing, SonarQube, OAuth 2.0, JWT, RBAC, Grafana, Splunk
- **Tools & Project Management :** Git, GitHub, GitLab, JIRA, Confluence, Asana, RAID Documentation, Gantt Chart, UML, Apache Spark, Microsoft Office, LLM Integration, Prompt Engineering

PROFESSIONAL EXPERIENCE

AT & T| June 2024 – Present

Java Full Stack Developer

- Engineered high-performance web applications using Java 17, Spring Boot, Angular, React.js, and TypeScript, enhancing UX for 10,000+ daily users and reducing page load speed by 30%.
- Designed and deployed a scalable microservices ecosystem with Spring Cloud, Docker, and Kubernetes on GCP, reducing deployment time by 40% and improving system resilience.
- Developed and refined RESTful APIs with OAuth2, JWT authentication, and Kafka/RabbitMQ message queues, enhancing security and scalability.
- Optimized database performance by refining indexing, partitioning, and query execution plans (SQL, Oracle, Spark), ensuring seamless data handling at scale.
- Automated CI/CD pipelines with Jenkins, GitHub Actions, and Terraform, reducing failures by 50% via blue-green deployments and rollback strategies.
- Led and implemented contract testing, unit testing (JUnit, Mockito), and regression testing, achieving 90% test coverage and strengthening code reliability.

Tata Consultancy Services | May 2022 – December 2022

Full Stack Developer

- Transformed monolithic applications into Spring Boot microservices with Kubernetes, improving scalability and reducing downtime by 35%.
- Developed full-stack applications using Spring MVC, Node.js, jQuery, HTML5, CSS, Bootstrap, optimizing asynchronous processing by 30%.
- Implemented serverless architecture with AWS Lambda, API Gateway, reducing response times by 40% and lowering cloud costs.
- Built scalable RESTful APIs and introduced GraphQL, improving query flexibility and data retrieval efficiency.
- Refactored database schemas and caching strategies using Redis and NoSQL, decreasing high-latency queries by 35%.
- Managed Agile ceremonies, sprint planning, and backlog refinement in JIRA, accelerating feature delivery by 20%.
- Collaborated with cross-functional teams to enhance API security using OAuth2 and IAM policies.

Cripton Technosoft | June 2018 – March 2022

Java Developer

- Enhanced database interactions with Hibernate, JPA, MySQL, SQL Server, leveraging query batching and connection pooling, reducing execution time by 40%.
- Integrated AWS services (EC2, S3, RDS) for high-availability deployments, lowering infrastructure costs by 20%.
- Applied data structures and algorithms in backend processing, optimizing query execution and reducing latency.
- Applied SOLID principles and design patterns to improve code quality, reducing defects by 50% and accelerating release cycles by 15% with CI/CD automation and GitFlow.
- Strengthened observability and monitoring with Prometheus, Grafana, and Splunk, cutting debugging time by 30%.

EDUCATION & CERTIFICATION

- Master of Science in information technology| Clark University| May 2024
- AWS Certified Solutions Architect – Associate
