Tracking / Software / Other Skills: Jira, Microsoft Visio, JAD, Rational ClearQuest, UAT, Lucid chart, ETL Process, ELT Process, ERP Systems, Test Outlines & Test Cases, Use Cases & Use Case Mapping, Business Requirements, Requirements Traceability Matrix (RTM), Microsoft Access, Confluence, Smartsheet, Data modeling, Google Analytics, Business Analysis, Data Analysis, Requirements Gathering, Data Modeling, Data Visualization, Business Intelligence, Data Analytics, Salesforce

Soft Skills: Time management, Leadership and Management, Project Management, Product Management, Problem-Solving, Negotiation, Decision Making, Documentation & Presentation, Customer Relationship Management (CRM), Verbal Communication, Analytical Skills

Operating System: Windows, Linux, Mac

WORK EXPERIENCE

Johnson & Johnson, USA | Business Analyst

Jan 2024 - Current

- Led Agile ceremonies like sprint planning, stand-ups, and retrospectives for seamless project execution.
- Designed and implemented custom software solutions using tools like SharePoint and VBA scripting for Office products, streamlining business processes and enhancing productivity.
- Developed and maintained interactive dashboards and reports in Tableau, offering stakeholders real-time insights into key performance indicators (KPIs) and business metrics.
- Performed Gap Analysis to identify process inefficiencies and recommended data-driven solutions to bridge gaps and achieve desired outcomes.
- Executed functional testing, logged defects, and suggested enhancements via Jira for continuous software improvement.
- Worked with healthcare providers to analyze and optimize Electronic Health Record (EHR) systems, improving usability, data entry, and patient care outcomes.
- Facilitated Joint Application Development (JAD) sessions to gather comprehensive business requirements from stakeholders, documenting outcomes with tools like Microsoft Visio and Confluence for clarity and traceability.
- Produced detailed documentation, including requirements management plans, functional specifications, supplemental requirements, test plans, and test cases, to ensure alignment and understanding across teams.

Druva Software, India | Business Analyst

June 2020 - Nov 2022

- Applied Waterfall methodologies to assist in the structured planning and implementation of business and software development projects.
- Developed comprehensive BRDs and FRDs, ensuring clarity and alignment between business requirements and functional solutions.
- Designed reporting solutions in Excel and Power BI, leveraging complex SQL queries to source data and generate actionable insights.
- Identified and mitigated project risks, developing strategies to keep projects on track with scope, time, and budget.
- Performed data analysis to uncover trends and inform decision-making, driving business strategies and performance reporting.
- Authored and managed essential project documents, such as business requirements, design specifications, and executive presentations.
- Integrated data collection processes using MS Excel and Power BI, improving data accuracy and collection efficiency by 20%.
- Utilized HP Quality Center to create a robust Requirement Traceability Matrix (RTM), achieving a 98% requirement fulfillment rate.
- Planned and managed UAT activities, coordinating with stakeholders to ensure system functionalities met business requirements before final deployment.
- Cultivated and sustained strong stakeholder relationships, ensuring clear communication and alignment on project goals.

EDUCATION

Master in Computer Science | University of Central Missouri Warrensburg, MO

Bachelor in Computer Science | GITAM, Hyderabad, India
