

PAVAN KUMAR REDDY MAREDDY

Data Analyst

Cleveland, OH | (216) 303-3436 | maredtypavanreddy@gmail.com

PROFESSIONAL SUMMARY

Data Analyst with around 2+ years of experience delivering data-driven insights across technology and business environments. Skilled in SQL, Python, Excel, and BI tools to analyze large datasets, build dashboards, and support strategic decision-making. Strong background in data cleaning, exploratory data analysis (EDA), KPI tracking, and statistical analysis. Proven ability to automate reporting, improve data accuracy, and collaborate with cross-functional teams in Agile environments.

TECHNICAL SKILLS

Programming & Analytics: Python (Pandas, NumPy, Matplotlib, Seaborn)

Databases: MySQL, PostgreSQL, SQL Server

BI & Visualization: Power BI, Tableau, Looker

Data Analysis: Data Cleaning, EDA, KPI Tracking, Forecasting

Tools: Excel (VLOOKUP/XLOOKUP, Pivot Tables), Jupyter Notebook

Statistics: Hypothesis Testing, Regression Analysis, A/B Testing

Other: Data Modeling, ETL, Business Reporting

PROFESSIONAL EXPERIENCE

Data Analyst | August 2025 – Present

AT&T -Cleveland, OH

- Designed and maintained automated data pipelines using SQL and Python to consolidate data from multiple source systems into reporting-ready datasets.
- Developed standardized KPI frameworks and metric definitions to ensure consistent reporting across business units.
- Created ad-hoc analytical reports to answer business questions related to customer behavior, operational efficiency, and performance trends.
- Validated source-to-target data mappings and ensured accuracy during data migration and system upgrades.

- Built reusable SQL views and stored queries to support self-service analytics for business users.
- Performed root cause analysis on data discrepancies and worked with engineering teams to resolve data issues.
- Applied statistical techniques to evaluate process improvements and measure the impact of business initiatives.
- Supported data warehouse structures by maintaining fact and dimension tables for scalable reporting solutions.
- Partnered with stakeholders to translate high-level business problems into analytical requirements and dashboards.
- Prepared executive-ready presentations summarizing insights, trends, and recommendations based on data analysis.

Data Analyst | Jun 2022 – Apr 2023

Thomson Reuters-Hyderabad, India

- Automated recurring reports and data preparation tasks using Python and SQL, reducing manual effort and turnaround time.
- Analyzed large datasets using SQL and Python to identify trends and improve business performance.
- Built interactive dashboards in Power BI/Tableau to track KPIs, reducing manual reporting by 30%.
- Automated data cleaning and reporting workflows using Python, improving data accuracy by 25%.
- Collaborated with product, marketing, and operations teams to translate business needs into analytical solutions.
- Performed A/B testing and statistical analysis to support data-driven decision-making.

Junior Data Analyst | Jan 2021 – May 2022

Wipro – Hyderabad, India

- Analyzed data using SQL and Python Built dashboards.
- Extracted and analyzed data using SQL to support weekly and monthly reporting.

- Performed data cleaning, validation, and basic exploratory data analysis (EDA) to identify inconsistencies and support senior analysts with reliable datasets.
- Created Excel dashboards with Pivot Tables and formulas to monitor sales and operational metrics.
- Conducted exploratory data analysis (EDA) to identify anomalies and improvement opportunities.
- Assisted senior analysts in forecasting, data validation and stakeholder presentations.

EDUCATION

Master's Degree, Information Technology & Project Management

Indiana Wesleyan University – Indiana, USA
