PROFESSIONAL SUMMARY:

- An experienced Certified Salesforce Developer and Administrator with over five years of combined experience in designing, developing and implementing Salesforce solutions for clients across diverse industries.
- Proficient in a wide range of Salesforce technologies, including **Agentforce, Apex Classes, Batch Classes, Asynchronous Apex, Apex Triggers, Apex Tests, Flows, Lightning Web Components (LWC), SOQL, SOSL, SOAP API, REST API, Sales Cloud, Service Cloud, Reports** and **Dashboards**.
- Solid understanding of Salesforce configuration elements, such as **Objects, Fields, Tabs, Relationships, Formulas, Validation Rules, Users, Roles, Profiles, Page Layouts, OWD, Security/Sharing Rules, Permissions, Workflows** and **Approval Process**.
- Proven track record of working with CRM and ERP companies, specializing in **Sales, Service, Community and Health Clouds**, and delivering tailored Salesforce solutions that enhance operational efficiency and customer satisfaction.
- Extensive expertise in **SF Admin** configurations and **SFDC** Developments.
- Ability to write **SOQL** and **SOSL** queries across multiple objects.
- Experience in working with **Debug Apex Scripts** using System Log Console to catch Exceptions.
- High level understanding of **Salesforce Governor Limits** with an ability to optimize code to respect the limits.
- Well-versed in **Agile** methodologies, with extensive knowledge of scrum ceremonies, facilitating collaboration with cross-functional team to gather requirements, design solutions, and ensure timely project delivery.
- Detail-oriented team player with strong organizational skills. Ability to handle multiple projects simultaneously with a high degree of accuracy.

TECHNICAL SKILLS:

- Apex Triggers, Apex Classes, Apex Testing
- Asynchronous Apex, Flow, LWC, Aura
- Approval Process, Workflow Rules
- Validation Rules, Dashboards, Reports
- Data Loader, Data Import Wizard
- Visual Studio Code, SFDX, SFDC
- SOQL, SOSL, DML, Tableau, PowerBI
- REST API, SOAP API, Postman, Zapier
- OAuth and Single Sign-On, Sandbox
- Git, GitHub, JavaScript, HTML, CSS
- Jira, Agile Methodology, Waterfall

CERTIFICATIONS:

- Salesforce Certified Administrator
- Salesforce Certified Advanced Administrator
- Salesforce Certified Service Cloud Consultant
- Salesforce Certified Platform App Builder
- Salesforce Certified Platform Developer I

PROFESSIONAL EXPERIENCE:

**Salesforce Developer | Administrator, Ovia Health
Boston, MA**

April 2024 – Present

- Led removal of the Salesforce Health Cloud for the organization, collaborating closely with the Salesforce Support team and coordinating across DevOps, Product, and QA teams to ensure seamless transition.
- Led implementation of Salesforce Scheduler by translating business requirements into scalable, well-architected solutions while aligning with platform best practices.
- Designed and updated the Care Engagement Portal leveraging Salesforce Sites, enhancing functionality and experience for external users.
- Developed custom code and redesign of the Aura, Visualforce and Lightning Web Components to modernize interfaces for both Salesforce and external sites.
- Designed and developed custom applications, features and integrations within the Salesforce platform using Apex Code, Visualforce, Aura, HTML, Java Script and CSS, delivering scalable and tailored solutions for complex business requirements.
- Successfully performed analysis, coding, testing, debugging and integration implementations.
- Provided guidance on Salesforce platform capabilities, features and best practices to product team and stakeholders.
- Managed platform security and data integrity through user management, security configuration and routine system upgrades.
- Developed and customized Salesforce components including custom objects, fields, validation rules, flows and UI pages to address complex business challenges.
- Conducted assessments of existing Salesforce architectures to identify areas for improvement and recommended solutions.

**Salesforce Developer | Administrator, Symple Lending LLC
Tampa, FL**

November 2023 – April 2024

- Hands-on development implementation using Salesforce configuration and customization by utilizing Apex Classes, Apex Triggers, Visualforce Pages, Scheduled and Batch Classes.
- Successfully partnered with cross-functional teams to identify areas of process improvement and lead integration projects to implement solutions.
- Participated in the evaluation and implementation of new systems with Third-Party integrations.
- Created and modified existing Controllers and Triggers across the platform by avoiding governor limits.
- Employed Asynchronous Apex by developing optimized solutions for processing large data sets and performed complex calculations in a timely efficient manner.
- Automate business processes using Salesforce automation tools, such as Process Builder, Workflows, Formulas, Flows, Assignment Rules and Email Alerts.

**Salesforce Developer, Custment
Tysons, VA**

May 2020 – November 2023

- Build code and support Salesforce configuration and customization.
- Engaged in code reviews and wrote unit integration test cases to achieve 75% coverage adherence to best practices.
- Effectively debug and resolve technical issues and defects.
- Performed data updates and migration by utilizing Data Loader.
- Integrated Salesforce and external applications using REST API, SOAP API, OAuth and Single Sign-On.
- Wrote complex SOQL and SOSL queries across multiple Objects.
- Involvement in creating Lightning Web Components and Flows as per stakeholder requirements.
- Adept at collaborating and communicating with Agile Scrum team members to optimize workflows and ensure project success.
- Build strong relationships with key stakeholders, acted as a consultant to understand their needs and translated business needs into technical solutions.
- Utilized Jira to manage the project tickets and track defects.

**Salesforce Administrator, eClick Enterprise
Portland, OR**

February 2019 - March 2020

- Analyzed marketing and customer data to help sales and marketing teams deepen their market influence and build long-lasting customer relationships.
- Designed and optimized Salesforce CRM system configurations by data management and security settings.
- Managed user access and permission sets by creating Users, Roles and Profiles, troubleshoot issues, provided training and support as needed.
- Designed formula fields, validation rules, workflows and approval process to improve flexibility and functionality of the CRM platform ecosystem.
- Created and maintained custom objects, fields, tabs, master-detail, look up relationships, custom report types and flows in Salesforce to automate business processes.
- Used Apex Data Loader to map data sources and then load the resulting data.
- Successfully set up Organization Wide Default and Permission sets.
- Developed reports and dashboards for various department teams with self-service reports writing and dashboard maintenance.
- Successfully Integrated Tableau with Salesforce native reporting and dashboarding visualization tools.

EDUCATION:

Lomonosov State University, (MSU) BA

May 2006 – June 2010

- Business Administration

IBM Developer Skills Network

- Computer Science
- Certified Data Scientist
- Machine Learning with Python
