PROFESSIONAL SUMMARY

I am a highly skilled Data Analyst with over 4 years of experience delivering actionable insights through recurring and ad hoc analyses. I excel in leveraging advanced Excel functions (including macros, formulas, and data manipulation) Tableau, Power BI, and SQL to analyze and interpret complex datasets. Adept at translating business issues into data-driven solutions, I create clear, impactful visualizations to support decision-making. With a passion for statistical analysis and community development, I am eager to contribute my expertise to drive improvements and efficiency in business processes

SKILLS

Key Skills: Data Science, Data Analysis, Data Modelling, Data Visualization, Statistical Analysis, Performance Metrics Reporting, Problem Solving, Predictive Analysis, Tableau, Python, Microsoft Suite, MATLAB, PostgreSQL, MySQL, Google Analysis, HTML/CSS, JavaScript, Minitab, AutoCAD, ADS, Latex, Prusa Slicer, Planning & Organizational Skills, Lean Manufacturing, Problem Solving

PROFESSIONAL EXPERIENCE

10Alytics **Remote**
Industrial Engineer | Data Analyst *May 2024 - Present*

- Developed predictive models to identify trends in property acquisition, sales, and foreclosures, improving forecasting accuracy by 25%
- Developed and implemented Excel macros and advanced formulas to streamline data management processes
- Validated 50+ annual data reports submitted by public transit operators
- Contributed to 5+ special projects, including performance reporting, archived data review, and data product quality checks

Famu-Chevron Str2eam Innovative Fablab **Tallahassee, FL, USA**
Graduate Assistant *January 2023 - May 2024*

- Ensured data accuracy and consistency in dashboards, collaborating with engineering teams to reduce data errors by 25% and enhance reporting accuracy
- Assisted in creating a networked OctoFarm for 3D printers, enhancing machine monitoring and reducing downtime by 30%
- Operated and maintained various FabLab machines, including Epilog Laser, Heat Transfer Vinyl Cutter, 3D Printer, CNC Milling Machine, contributing to a 40% increase in machine usage efficiency

METZ Culinary Management **Tallahassee, FL, USA**
Data Analyst | Data Entry *January 2022 - December 2023*

- Generating & exporting data reports, spreadsheets, & documents as needed
- Monitoring & reviewing databases & correcting errors or inconsistencies by 25%
- Research to obtain information for incomplete documents and materials.
- Updating and maintaining databases, archives, and filing systems

PROJECTS & OUTSIDE EXPERIENCE

<https://github.com/halimotoye>

- Data Cleaning Project: Savvy Data and Vector Inc Data, Dashboard: Customer Purchase Behavior and Sales Performance
- Customer Prediction, Sterling E-Commerce Data, Statistics for Data Science Plus Machine Learning
- Forecasting in Excel: Developed predictive models to forecast demands
- Tableau: Employee Attrition Dashboard (TechSolutions) and GlobalMart
- [Link to project](#)

EDUCATION

Florida A&M University **December 2023**
Master's, Industrial Engineering

Federal University of Technology, Akure **September 2015**
Bachelor's, Mechanical Engineering

CERTIFICATIONS

Master Data Scientist | Master of Science in Industrial Engineering | Certificate for FabLab Foundation
LinkedIn Certificate of Completion on Python for Engineers & Scientists | Data Analytics | CSS | HTML Essential Training
