PROFESSIONAL SUMMARY

A results-driven and analytical professional seeking a Business Analyst Position, leveraging one year of experience as a Quality Control Analyst In the pharmaceutical industry. Eager to transition into business analysis By utilizing my strong problem-solving skills, data analysis capabilities and experience in process optimization to drive business insights and improve organizational performance.

WORK HISTORY

August 2022 - August 2023

Quality Control Analyst *Misom Labs Limited*, MALTA

- Performed routine quality control tests on raw materials, in-process samples, and finished products to ensure compliance with regulatory standards (FDA, GMP).
- Collaborated with cross-functional teams to resolve quality-related issues, providing data-driven insights to improve product quality and reduce defects.
- Analyzed and documented test results using statistical methods, ensuring timely reporting of findings to management and stakeholders.
- Conducted a data review, and supported the validation of new processes, ensuring compliance with industry standards and regulations and conducted internal audits to maintain compliance with quality standards.

April 2020 - May 2021

Research Intern *CAAD*, ITALY

- Collaborated with Lia Rimondini on three European projects: cell biology, nanoparticle interactions, and antibiotic effects on bacteria. The first focused on 3D modeling of keratinocytes, fibroblasts, and endothelial cells, and on bacterial biofilm interaction.
- Completed research, compiled data, updated spreadsheets and produced timely reports.
- Gathered, arranged, and corrected research data to create representative graphs and charts highlighting results for presentations.
