+1(513) 690-2060 • palapava@mail.uc.edu • Cincinnati, OH • www.linkedin.com/in/vaishnovip

Eligible for full-time opportunities starting (April 2025)

EDUCATION

University of Cincinnati, Carl H. Lindner College of Business

Cincinnati, Ohio

Master of Science, Information Systems

Expected Graduation: Dec 2025

- Post-Baccalaureate Certificate in **Data Analytics**
- *Relevant Courses:* .Net, Systems Analysis & Design, Data Modeling, Data Visualization, Statistical Computing, Data Analysis.

GITAM University

Bangalore, India

Bachelor of Technology, Mechanical Engineering (Supply Chain Management, Operation Research)

June 2020

SKILLS

- **Software:** Tableau, MS Excel, SQL, MS PowerPoint
- **Programming Language & Coding:** HTML, CSS, Python, R, C#, Shell Scripting, Bash, ASP .NET
- **SCM:** Git and AWS Code Commit
- **Infrastructure as Code (IaC):** Terraform
- **Containerization & Orchestration:** Docker and Kubernetes for container management and orchestration.
- **CI/CD & Cloud Services:** Jenkins and Playbooks; EC2, S3, IAM, VPC, SNS, Lambda, CloudFront, CloudWatch, DynamoDB and monitoring with CloudWatch.

WORK EXPERIENCE

Teaching Assistant, Digital Technologies in Business

Aug 2024 – Present

University of Cincinnati, Carl H. Lindner College of Business

Cincinnati, Ohio

- Assisting in teaching MS Excel, MS Access and Python, conducted discussion sections, grading assignments & exams, and providing feedback on assignments to enhance student learning & performance.

DevOps Engineer

Oct 2020 – May 2022

TATA Consultancy Services (TCS)

Bangalore, India

- Designed and implemented serverless solutions using AWS services such as **EC2, S3, CDN, DynamoDB, API Gateway & Lambda**, optimizing cost and performance in the development environment.
- Experienced in creating CI/CD pipelines with **Jenkins**, managing containerization using **Docker**, and automating deployments with Ansible, ensuring streamlined software delivery.
- Skilled in using **GitHub** for source code management, including branch creation, repository management, and collaboration on projects with teams.
- Competent in programming languages including Python, C#, and Shell/BASH, leveraging these for automation scripts and application development.
- Explored **machine learning** fundamentals, integrating predictive models into applications using AWS SageMaker, enhancing data-driven decision-making processes.
- Strong background in **systems administration**, managing server configurations, and utilizing trouble shooting skills to resolve issues, ensuring optimal system performance and reliability.

Product Specialist

Aug 2020 – Oct 2020

Think & Learn Pvt Ltd (BYJUS)

Bangalore, India

- **Developed data charts, custom usage rates**, and test case scenarios to facilitate the effective deployment and functioning of the software workflows.
- Managed and scheduled workflows for an educational product targeting grades 6-10 across India, ensuring smooth operational performance and preventing breakdowns

Intern

May 2019 – June 2019

MECON Ltd

Bangalore, India

- Developed and optimized a minor pipeline route using GasWorks software for a citywide gas distribution project, including multiple branches.
- Supported on-site assembly and testing of pipeline systems, ensuring accurate installation and operational efficiency.

ACADEMIC PROJECTS

Building 3D Printer

2020

- Created, designed and built a 3D printer from scratch using level 1 tools and machine parts in a more cost-effective way. Used **AutoCAD, SolidWorks & Catia** with build, analyze & inspect the 3D printer Model.
