

Venkata Sai Ruchitha Bommavaram

Data & Business Analyst

Phone: +1 (551) 399-8014 | Email: bvsairuchitha@gmail.com | Location: New Jersey, USA | [Linkedin](#)

PROFESSIONAL SUMMARY

Data and Business Analyst with **4 years** of experience translating complex financial and operational data into actionable insights. Proficient in Python, SQL, Power BI, and Tableau to automate reporting and enhance forecasting accuracy by 20%. Proven track record of optimizing business processes, improving efficiency by 30%, and enabling data-driven decisions across cross-functional teams in fast-paced environments.

EXPERIENCE

Data Analyst | Principal Financial Group - New York, NY

March 2025 - Present

- Developed and launched interactive **Power BI dashboards** integrating P&L, expense ratios, and **variance trends**, **accelerating reporting speed by 45%** and enhancing executive insight into KPIs.
- Engineered **Python-based forecasting models** using **ARIMA** and regression techniques to project cash flows and expense patterns, **boosting budget accuracy by 20%** and enabling predictive financial planning.
- Orchestrated finance and business collaboration to connect **SQL-driven data pipelines and Snowflake**, optimizing **FP&A** workflows and strengthening audit transparency.
- Defined KPI measurement frameworks and financial benchmarks with executive leadership, transforming raw **datasets** into actionable analytics that informed revenue and cost strategies.
- Automated legacy **Excel** workflows with **Power Query and VBA**, eliminating repetitive reporting tasks and saving more than **15 analyst hours weekly** across cross-functional teams.
- Diagnosed **root causes of budget variances** through in-depth variance analysis, exposing cost inefficiencies and facilitating **data-backed optimization** initiatives.

Data Analyst | WebCode IT - Hyderabad, INDIA

July 2020 - December 2023

- Designed dynamic **Tableau dashboards** tracking portfolio-level **KPIs**, elevating business performance visibility and improving client satisfaction metrics by **30%**.
- Facilitated cross-functional requirement sessions with finance and operations partners, converting business priorities into analytical models and measurable KPI frameworks.
- Streamlined financial **data integration** by architecting **SQL queries** and automating **ETL workflows in Alteryx and Power Query**, reducing manual inputs and increasing data reliability.
- Analyzed **revenue trends** and profitability levels across lines of **business**, uncovering insights that delivered Proficient amount in yearly operational savings.
- Built scenario-based Excel forecasting tools with sensitivity analyses to support strategic planning and quarterly performance reviews.
- Validated **BI dashboards** and **UAT deliverables** in partnership with **QA teams**, ensuring analytical consistency with stakeholder expectations.

EDUCATION

Master of Science in Management Science, New Jersey Institute of Technology, Newark

Bachelor of Engineering in Computer Science Engineering

Stanley College of Engineering and Technology for women, Hyderabad, India

SKILLS

Methodologies: SDLC (Agile, Scrum)

Programming Languages & IDEs: Python, R, SQL, Visual Studio Code, PyCharm, Jupyter Notebook, RStudio

Python & R Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow, Keras, ggplot2

Data Visualization & Reporting Tools: Power BI (Power Query, DAX), Tableau, Excel (Pivot Tables, Power Pivot, VLOOKUP, XLOOKUP, VBA, Conditional Formatting), Google Data Studio

Database & Data Management: MySQL, SQL Server, PostgreSQL, MongoDB, Oracle, MS Access, Snowflake

ETL & Data Integration Tools: Alteryx, Informatica, AWS Glue, Power Query, Power Automate, Talend

Cloud & Version Control: AWS (S3, RDS, Lambda), Azure (Data Factory, Synapse), GCP (BigQuery), Git, GitHub

Business Analysis & Project Management: BRD, FRD, User Stories, Process Mapping (Visio, Lucidchart), Requirement Gathering, Gap Analysis, Agile/Scrum (JIRA, Confluence), UAT Coordination

Statistical & Predictive Techniques: Descriptive & Inferential Statistics, Regression Analysis, Forecasting, Hypothesis Testing, A/B Testing, Time Series Analysis

Operating Systems: Windows, Linux
