PROFESSIONAL EXPERIENCE

RESOURCE AND DATA SUPERVISOR | 211 San Diego – San Diego, CA

January 2011 – September 2025 (14+ years)

Leadership & Team Management

- Supervised 4-person team of Resource and Data Specialists, conducting annual performance reviews and daily coaching that achieved 100% of KPI targets for 14 consecutive years
- Trained team on AIRS Standards, quality assurance protocols, and taxonomy classification, resulting in 100% team certification and sustained compliance
- Managed daily workflow distribution and project priorities to maintain 100% annual database update rate across 5,000+ community agency records
- Served on Incident Management Team during county emergencies, coordinating real-time data delivery to call center staff and county officials during critical events

Database Management & Quality Assurance

- Maintained comprehensive resource database of 5,000+ agencies and 12+ service categories, achieving 100% annual update target through systematic quality control
- Conducted 200+ agency verification interviews monthly to ensure accurate service descriptions and appropriate categorization using standardized taxonomy
- Performed systematic audits identifying and resolving 50+ data discrepancies monthly while maintaining zero compliance violations over 14 years
- Reviewed and approved new agency requests against organizational inclusion criteria, ensuring data integrity and quality standards for all additions
- Reduced duplicate records by implementing validation protocols that flagged inconsistencies across multiple data fields and service categories

Data Analytics & Business Intelligence

- Designed 15+ Excel and Salesforce dashboards tracking KPIs, database metrics, and team productivity for senior leadership decision-making
- Developed 20+ SQL queries to extract and synthesize data from multiple systems, producing weekly and monthly reports for strategic planning

- Built custom reports responding to 100+ monthly data requests from internal stakeholders, external partners, and county officials
- Generated trend analysis identifying service gaps and resource deployment opportunities across San Diego County's social services network

Process Improvement & Systems Administration

- Created 10+ standard operating procedures and data entry templates that standardized practices across the Informatics Team
- Managed internal Helpdesk triaging 100+ monthly requests with timely resolution and comprehensive documentation
- Implemented 10+ system improvements automating manual workflows, reducing data entry time, and enhancing operational efficiency
- Administered 25+ Salesforce user accounts with role-based permissions ensuring data security and appropriate access controls
- Updated 8+ internal web pages quarterly using HTML/CSS, maintaining current resource information and managing 100+ annual event calendar integrations

ADDITIONAL EXPERIENCE

OFFICE MANAGER | TypeHaus, Inc – Encinitas, CA | January 2007 – September 2007

- Managed operations and financial administration for 4-person team
- Reconciled accounts receivable/payable and investigated financial reporting discrepancies

ACCOUNTS PAYABLE SPECIALIST | Southern Pride Trucking – San Diego, CA | March 2001 – December 2006

- Processed daily payables, maintained general ledger accuracy, and completed month-end reconciliations
- Ensured vendor payment accuracy and compliance with financial controls
