PROJECTS

TaskFlow (*HTML, CSS, Express, JavaScript, MySQL*),

Nov 2024 – Dec 2024

- Developed a full-stack to-do application with a relational MySQL database to manage & persist user tasks, statuses, & deadlines
- Designed RESTful APIs with Express.js to enable structured communication between a dynamic front end & a scalable back end
- Implemented secure authentication using bcrypt & session handling middleware, aligning with best practices in access control & data privacy
- Normalized relational database schema & optimized SQL queries to support efficient data retrieval & reduce redundancy

Joe's Window Pros (*React, TypeScript, CSS*),

July 2025 – Aug 2025

- Developed a responsive website for Joe's Window Pros, a family-owned window cleaning business, to showcase services, company background, and a quote request form for potential customers
- Implemented React Router to enable smooth, client-side navigation across the services, about, and contact pages
- Integrated Web3Forms API to create a contact form that securely sends user messages directly to the company's email
- Built reusable, type-safe UI components using React and TypeScript; styled with a desktop-first CSS approach to ensure design consistency across screen sizes

VoteEasy System (*Java*),

Sep 2023 – Dec 2023

- Built a Java-based console application simulating & comparing multiple voting algorithms using object-oriented programming principles
- Isolated voting logic from input/output processing to promote flexibility, modularity, & maintainable design
- Collaborated in an Agile team of four with responsibilities spanning sprint planning, code reviews, & peer testing
- Developed comprehensive unit tests with JUnit, ensuring system correctness, edge-case coverage, & fault resilience

EDUCATION

University of Minnesota, Twin Cities

Minneapolis, MN

College of Science & Engineering

May 2025

Bachelor of Science in Computer Science

Cumulative GPA: 3.877

8x College of Science & Engineering Dean's List (Fall 2021 - Spring 2025)

LEADERSHIP EXPERIENCE

Minnesota International Student Association (MISA)

Minneapolis, MN

President's Intern

Oct 2022 – May 2023

- Implemented efficient policies, adapting to evolving needs while ensuring effective club operations
- Collaborated with external organizations, showcasing club's diversity & global community

Code The Gap

Minneapolis, MN

Volunteer Instructor

Apr 2023 – May 2023

- Volunteered to teach Python to K-12 students & create opportunities for them to engage with STEM
- Helped encourage the participation of historically underrepresented groups in STEM

TECHNICAL SKILLS

Languages & Frameworks: Python • Java • C • C++ • TypeScript • HTML • CSS • JavaScript • Express • SQL

Tools & Technologies: Git • Docker • Jira • Node.js • React • Visual Studio Code • MySQL
