

Yash Pattani

Data Analyst

+1(301) 793-6025 | Yashpattani1@gmail.com | Maryland, 20740

SUMMARY

Results-driven Data Analyst with 3 years of experience in leveraging Python, R, and SQL to analyze and interpret complex datasets. Skilled in building insightful dashboards using Tableau and Power BI, and improving data quality. Proven success in developing predictive models that increased forecast accuracy by 20% and integrating data analysis tools into software applications. Experienced in statistical analysis, data visualization, and cloud technologies, including AWS and Azure, to support strategic decision-making and business growth.

SKILLS

Programming Languages	Python, R, SQL
Data Visualization Tools	Tableau, Power BI, Matplotlib, Seaborn
Statistical Analysis	Hypothesis Testing, Regression Analysis
Data Manipulation	Pandas, NumPy, Dplyr
Databases	MySQL, PostgreSQL, MongoDB
Data Cleaning	Data Wrangling, Data Normalization, Data Imputation
Cloud Technologies	Amazon Web Services (AWS), Google Cloud Platform (GCP), Microsoft Azure
Tools & Technologies	Excel, Jupyter Notebook, Git, Hadoop
Methodologies	Agile, Scrum
Operating Systems	Windows, Linux

EXPERIENCE

Jr Data Analyst, Alpine Corporation, USA

02/2024-Present.

- Designed and maintained data warehouses with PostgreSQL and GCP, supporting the scalability and efficiency of data storage solutions.
- Analyzed customer purchase data using SQL and Python to identify trends, resulting in a 15% increase in sales by recommending targeted promotions.
- Developed dashboards and reports using Tableau and Power BI, providing real-time insights that improved inventory management by 20%.
- Conducted market analysis and competitor benchmarking with R and Excel, leading to the successful launch of 3 new product lines.
- Performed data cleansing and preprocessing on 2 million records using Pandas, enhancing data quality and accuracy for strategic decision-making.
- Managed ETL processes using AWS and Python to consolidate data from 5 different sources, ensuring seamless integration and accessibility.

Jr Data Analyst, F5 Networks, USA

06/2022-11/2022

- Developed automated scripts using Python to monitor firewall activity, resulting in a 25% reduction in potential security breaches.
- Collaborated with network engineers to optimize firewall performance, reducing downtime by 15% using Agile methodologies.
- Maintained and updated firewall configurations across 50+ client environments, ensuring compliance with industry standards.
- Integrated firewall solutions with AWS and Azure cloud environments, enhancing cross-platform security measures.

Data Analyst Associate, Hexaware Technologies, India

05/2019-07/2021

- Developed data analysis scripts using Python, improving the accuracy of sales forecasts by 20%.
- Designed and implemented data visualization dashboards using Tableau, providing actionable insights that increased decision-making efficiency by 30%.
- Maintained and updated data warehouses with PostgreSQL, ensuring data integrity and accessibility.
- Performed data cleaning and preprocessing on large datasets using Pandas, improving data quality by 35%.

EDUCATION

Master of Science in Information Systems,

University of Maryland at College Park.

08/2021-12/2022.

Bachelors in Computer Science and MBA in Marketing,

Narsee Monjee Institute of Management Studies Mumbai.

07/2014-04/2019.
