1 THE CHALLENGE

Why Experienced Consultants Go Unplaced

Thousands of IT consultants — Data Analysts, Java Developers, Business Analysts, SAS professionals — with **5, 7, even 10 years of experience** are applying on Dice and LinkedIn every single day and hearing nothing back.

The problem isn't your skill set. **Most resumes are filtered out by ATS systems before a single human ever reads them.** You're competing with an algorithm first — and a poorly structured profile loses that battle every time, regardless of your experience.

2 OUR SOLUTION

Your 7-Day Profile Build

ATS-Optimized Resume

Full rebuild — keyword-aligned to pass every automated filter.

LinkedIn Optimization

Headline, summary & skills tuned to recruiter search patterns.

Mock Interview Sessions

Domain-specific practice with experts at your target level.

Real-Time Case Studies

Role-specific scenarios so you walk in confident every time.

Digital Professional Card

A modern shareable identity that sets you apart instantly.

• All 5 services • 7 business days

3 OUR COMMITMENT

Interview Within **18–20 Days.** Guaranteed.

Once your profile is ready, our team pushes it across our full client and vendor network — Fortune 500 companies, Tier-1 vendors, and sub-vendors — all actively staffing right now. Not a best-case scenario. Our committed window.

4 INVESTMENT

Simple, Transparent Pricing

REGISTRATION FEE

\$275

One-time payment

Covers your full 7-day profile build — resume, LinkedIn, mock sessions, case studies, and digital card. **Paid once. Never again.**

POST-PLACEMENT FEE

6.3%

of annual contract salary

Charged **only after you are placed and earning.** On a \$90K contract — that's \$5,670, earned back in your very first week.

No hidden charges. No monthly fees. No retainers.
We only win when you win.

The math: Every week on the bench costs thousands in lost income. The \$275 registration is less than what most senior consultants lose in a single unplaced week.
