Education

Master of Science in Business Analytics | University of California, San Diego – *MSBA Scholarship Recipient*

(2021–2022)

Experience: 9+ years in Analytics domain

Business Analyst II, Amazon, Seattle Washington

03/2024 – Current

World's largest online retailer

- Developed and standardized **Key Performance Indicators (KPIs)** to measure, control, and benchmark sales reporting processes, enabling **data-driven decisions** across a **150+ member sales organization**.
- Served as **subject matter expert** for **Amazon QuickSight**, translating **1B-row datasets (1TB)** into **actionable data visualization & insights**
- Delivered the **Weekly Business Review (WBR)** to senior leadership, providing actionable insights into **seller performance, pricing, and regional trends**, influencing key **operational and sales strategy decisions**.
- Facilitated data accessibility and consistency across North America, Europe, and Asia, **reducing cross-regional reporting variance from 15–25% to under 2%**, ensuring consistent KPI alignment globally.
- Designed Seller Health Rating metrics to improve feedback resolution efficiency by 18%, enhancing seller satisfaction.
- Built and deployed **pricing trend dashboards** to monitor **WoW category fluctuations**, reducing pricing anomalies by **10%** and providing real-time insights to senior leadership.
- Devised **new-seller onboarding KPIs** to track activation and early sales, driving a **12% improvement in new-seller success rates**.

Senior Data Analyst, Carvana, Phoenix Arizona

05/2023 – 02/2024

An online used car retailer and Fortune 300 company

- **Led inspection estimation optimization** across all Carvana Inspection Centers, driving a **35% reduction in vehicle reworks** through data-driven process redesign.
- **Designed and executed A/B testing** on vehicle build sheets, improving inspection efficiency and turnaround by **15%**.
- **Developed and automated KPI dashboards** using **SQL, Azure Data Studio, Tableau, and Power BI (DAX, Power Query)**, enhancing visibility into operational performance across the organization.
- **Partnered with product, data, and inventory teams** to refine operational strategies and implement insights into key business workflows.
- **Acted as liaison between Regional and General Managers**, presenting weekly inventory analyses and driving cross-functional alignment.
- **Improved data accuracy and analytical reliability** by standardizing validation methods and contributing to BI process optimization.

Business Analytics Consultant Intern, ESRI, San Diego.

03/2022 - 07/2022

Domain leader in Geospatial analytics platform

- **Collaborated on a rail-network optimization project to identify strategic hub locations using ESRI's geospatial analytics tools.**
- **Conducted spatial data modeling and visualization to support network design decisions, influencing executive recommendations for site selection.**

Product Insights Manager, Deployd, Bengaluru, India

02/2019 - 03/2021

A product-based start-up, working on an upcoming Dev-ops solution for masses

- **Drove adoption of BI and analytics frameworks, enabling data-driven decision-making across product and engineering teams.**
- **Designed and prototyped key components of an in-house DevOps analytics product (UI/UX, user testing, architecture), improving release visibility and usability.**
- **Created executive Power BI and Tableau dashboards and led Agile delivery (Scrum, sprint planning), aligning leadership KPIs with product performance insights.**

Senior Data Analyst, SOA IT Solutions, Bengaluru, India

05/2017 - 02/2019

An enterprise IT solutions service provider

- **Established a Data Intelligence Center of Excellence, improving analytics capability and data-driven reporting for enterprise clients.**
- **Optimized complex SQL validations and BI workflows, reducing data-verification time by 70% and boosting report efficiency by >90%.**
- **Served as Tableau/Power BI SME and mentored new analysts through custom training materials and onboarding programs.**

Data Analyst Associate, Think & Learn Pvt. Ltd, Bengaluru, India.

06/2016 - 02/2017

An Indian multinational educational technology company

- **Designed and validated SQL scripts and KPIs supporting business performance dashboards.**
- **Built visual dashboards for internal stakeholders, streamlining reporting on student engagement and product performance.**

Technical Skills

- Visualization & BI Tools: **Amazon QuickSight, Power BI, Tableau, Looker (Google Data Studio), ArcGIS Suite**
- Programming & Querying: **SQL, R, Python**
- Analytics & Experimentation: **A/B Testing, Hypothesis Testing, Product Analytics, Geospatial Analysis**
- Project & Design Tools, Methodologies: **JIRA, Wrike, Figma, UiPath, Agile, Scrum, Continuous Integration/Testing**
