

Ami Jaswa

Encounter analyst, business analyst

Houston, TX 77008

asjaswa@gmail.com

+1 269 276 6497

Enthusiastic analyst with six years of experience with encounter data submissions, reconciliations, and corrections. Additional experience in requirements gathering, implementation and continued business processing as business lead on Cognizant's implementation of the encounter data manager (EDM) application for multiple Medicare clients.

Multifaceted individual who is comfortable interacting with clients and internal departments to ensure tasks are completed in a timely and accurate manner. Go getter with the ability to work well with others and complete tasks to achieve personal, departmental, client and company goals!

Authorized to work in the US for any employer

Work Experience

Encounter Analyst

Molina Healthcare-Troy, MI

April 2022 to May 2024

Review encounter rejections received from State of Michigan and route for corrections, mapping changes, or resubmissions.

Generate daily, weekly and monthly reports for senior leadership to report on health of encounters operations.

Develop, update and maintain SQL queries in Databricks for data validation and encounters reconciliation.

Work across departments to implement upfront edits to decrease rejections from the State.

Encounter Analyst, Business Analyst

TMG Health Cognizant-Jessup, PA

May 2017 to May 2020

Assisted 2 colleagues in Medicare encounters submissions, reconciliations, and corrections for 7 separate clients.

Researched encounter rejections received from CMS in order to accurately route rejected encounter to claims department, enrollment and eligibility department or provider education.

Assisted in weekly client meetings for all clients eventually leading Medicare encounters discussion with our largest client, HCSC.

Gathered business requirements to ensure Cognizant's EDM application (encounter data manager) was correctly configured for Medicare encounter submissions. Provided accurate requirements on 837 creation, reading TA1/999/277/MAO-002/MAO-001 response reports, and identifying errors in encounter data and potential error resolution strategies.

Developed SQL queries to accurately pull data that caused CMS encounter rejections from various databases. Processed and analysed rejection data using Access and Excel, and presented data using Excel and Powerpoint.

Acted as business lead for HCSC Medicare Advantage encounter submissions ensuring timely submission of claims data to Medicare, and timely and accurate analysis of Medicare response files for submitted encounters.

Acted as implementation co-lead for rest of Tmg/ Cognizant clients as clients moved from TMG legacy encounter submissions process to Cognizant's EDM application platform.

Worked with multiple departments and clients to gather requirements and provide feedback on quality of claims and encounter data to identify opportunities for improvement and provide solutions to decrease encounter rejection rates.

Customer Quality Specialist

TMG Health Cognizant-Jessup, PA

January 2017 to May 2017

Providing guidance to customer service representatives ensuring the service levels meet or exceed client expectations.

After TMG merger with Cognizant, providing training to offshore customer service representatives and quality management team on client expectations, navigating plan benefit knowledge base, handling customer disputes, claims management, and internal call center systems.

Customer Service Representative

TMG HEALTH-Jessup, PA

August 2016 to January 2017

Providing rockstar level customer service for Express Scripts' Medicare Part D members!

- Resolved payment disputes
- Confirmed payments, refunds, etc.

Manager on Duty (MOD)

Motel 6 / Studio 6-Webster, TX

March 2015 to May 2016

Handled daily managerial duties including but not limited to financial balancing, bank deposits, schedule making, inventory management, housekeeping management, customer service, conflict resolution, checking in/out guests, answering phones, and ensuring guest satisfaction to meet corporate requirements.

Academic experience

Western Michigan University-Kalamazoo, MI

- Molecular Biology Laboratory.
 - ✓ Bioinformatics: finding gene sequence using a related gene
 - ✓ DNA/RNA extraction
 - ✓ Reverse transcriptase-PCR
 - ✓ Plasmid creation
 - ✓ Bacterial transformation
 - ✓ MS Excel, MS Word,
 - ✓ Use of: Nanodrop, GC-MS (Gas chromatography-Mass Spectrometry), centrifuges, autoclave, thermocycler, bacterial culture, reading gels.
- * Characterization of a sequenced gene from Citrus sinensis using bioinformatics, DNA/RNA extraction, reverse transcriptase-PCR, plasmid creation, bacterial transformation, and protein assay. Additional knowledge in using various laboratory equipment along with extensive experience in cleaning lab equipment. Preparation of a final research paper based on research results using Microsoft excel and word.
- Microbiology Lab.
 - ✓ Aseptic technique
 - ✓ Determining bacterial resistance
 - ✓ Bergey's Manual utilization
 - ✓ Use of different tests to identify bacterial strains
 - ✓ Flow chart creation and use
- * Theoretical knowledge of microbiology regarding bacteria from reproduction to their mechanism of causing disease in hosts. Practical work covered aseptic technique, use of various media to culture and

identify different bacteria, virus titers and research paper writing based on two original experiments to isolate bacteria.

- Biochemistry Laboratory.

- ✓ LC-MS, GC-MS

- ✓ SDS-PAGE, Agarose gel

- ✓ Restriction enzyme digest

* Practical knowledge in Isolation and properties of proteins, enzymes, carbohydrates, lipids and nucleic acids. Use of instrumentation for bioanalytical determinations including: spectrophotometer, protein purification and electrophoresis, testing of enzyme kinetics, and restriction enzyme digest.

Education

Bachelor of Science

Western Michigan University

December 2013

High school or equivalent

Portage Northern High School

May 2004

Skills

- Excel (7 years)
- Microsoft Word (7 years)
- Microsoft Office
- Microsoft Powerpoint (6 years)
- Business Analysis (3 years)
- Microsoft Access (2 years)
- SQL (3 years)
- Qualitative Analysis
- Time Management
- Managed Care
- System Design
- EDI (3 years)
- Data Analytics (3 years)
- Microsoft Powerpoint (4 years)
- ANSI X12 (3 years)
- Medicare encounter processing (3 years)
- Facets (4 years)
- Encounter analyst (3 years)
- Relational Databases
- Microsoft SQL Server
- HIPAA
- Customer Service

- Requirements Management
- MySQL
- Microsoft Excel
- Administrative experience
- Project management
- Data analysis skills
- Requirements Gathering
- Business Requirements
- Military
- Pivot tables
- Data visualization
- Analysis skills
- Root cause analysis
- User acceptance testing
- User Interface (UI)
- Application Development
- Data Warehouse
- ServiceNow

Additional Information

Computer Skills

Excellent command of Microsoft Word, Excel, Powerpoint, Publisher

Proficient in using online genomic, proteomic and bioinformatics databases such as NCBI, ExPASy
