

BABY ANUSHKA PAPIREDDY

Full Stack Java Developer

(551) 359-1706 | babyanushka2000@gmail.com | LinkedIn: [linkedin.com/in/baby-anushka](https://www.linkedin.com/in/baby-anushka)

PROFESSIONAL SUMMARY

Full Stack Java Developer with 5+ years of experience designing, developing, and deploying scalable, high-performance enterprise applications. Specialized in **Java, Spring Boot, Microservices**, and full-stack web development using **ReactJS** and **Angular**. Proficient in cloud platforms (**AWS, Azure, GCP**) and **DevOps** tools (**Docker, Kubernetes, Jenkins, Terraform**) for automated deployments. Skilled in building secure **RESTful** and **GraphQL APIs**, implementing CI/CD pipelines, and managing data with **MySQL, PostgreSQL, and MongoDB**. Passionate about performance optimization, security standards, and **Agile (Scrum, TDD, Kanban)** methodologies.

TECHNICAL SKILLS

- **Programming & Frameworks:** Java, Python, Spring Boot, Hibernate, RESTful APIs, GraphQL, JavaScript, TypeScript, ReactJS, Angular, NodeJS, ExpressJS, Microservices
 - **Cloud Platforms:**
 - *AWS:* EC2, Lambda, S3, RDS, DynamoDB, API Gateway, IAM, Fargate
 - *Azure:* AKS, Blob Storage, Cosmos DB, Azure Functions, Azure DevOps
 - *GCP:* GKE, Cloud Run, IAM
 - **DevOps & Tools:** Docker, Kubernetes, Jenkins, Git, GitHub, Bitbucket, Terraform, GitHub Actions, Apache Kafka
 - **Databases:** MySQL, PostgreSQL, Oracle 12c, MongoDB, Cassandra
 - **Web Technologies & APIs:** HTML5, CSS3, JavaScript, JSON, SOAP, REST, GraphQL
 - **Testing & Version Control:** JUnit, Mockito, Selenium, Cypress, Jest, Enzyme, Git
-

PROFESSIONAL EXPERIENCE

Sr. Java Full Stack Developer

Wintrust Financial Corporation, Rosemont, IL

June 2023 - present

- Designed and implemented scalable, high-performance microservices for **transaction processing** and **customer account management** using **Java, Spring Boot, and Kubernetes**, enhancing **system reliability** and **throughput** in a **cloud-native financial environment**.
- Built robust **RESTful APIs** to handle high-volume financial transactions, ensuring **zero downtime**, **high availability**, and secure access with **Spring Security** and **OAuth2**.

- Optimized and automated **CI/CD pipelines** leveraging **Jenkins, GitHub Actions**, and **Docker**, shortening deployment cycles and minimizing release risk.
- Developed test-driven code with **JUnit** and **Mockito**, increasing test coverage and reducing production bugs.
- Streamlined third-party integrations by implementing **API versioning** and documentation using **Swagger/OpenAPI**.

Key Achievements:

- Increased system reliability and reduced service downtime across mission-critical financial services.
 - Successfully delivered microservices-based banking integrations ahead of schedule, improving development velocity.
-

Java Full Stack Developer, **Wipro** , Hyderabad, Telangana *July 2021 – Dec 2022*

- Designed and implemented the **CROAMIS Cargo Application** for Qatar Airways using **Java, Spring Boot, and Kubernetes** in a **microservices** architecture.
- Built scalable **RESTful APIs** to support millions of transactions with high availability and zero downtime, integrating **Spring Security** for secure access.
- Improved system efficiency by 15% through backend optimization with **Hibernate** and efficient database access patterns.
- Automated CI/CD workflows using **Jenkins** and **GitHub Actions**, reducing deployment time by 40%.
- Collaborated with cross-functional teams to address customer issues, reducing resolution time by 25%.
- Onboarded and mentored junior developers, supporting best practices and technical growth.

Key Achievements:

- Reduced downtime and increased response time across mission-critical services.
 - Delivered microservices integration ahead of schedule, increasing team velocity.
-

Java Developer

Tech Mahindra, Hyderabad, Telangana

May 2020 – June 2021

- Developed and maintained backend services using **Java** and **Spring Boot**, ensuring high performance and scalability.
- Optimized complex **SQL** queries and integrated them into Java-based data access layers, reducing processing time by 30%.
- Built APIs to support **BI dashboards**, enabling real-time data visualization and reporting across enterprise platforms.
- Replaced manual Excel-based workflows with automated Java programs, increasing reporting accuracy and reducing errors.

Key Achievements:

- Enhanced **ETL pipeline** stability using Java-based validation logic and error handling mechanisms.
- Contributed to 3+ major product releases, delivering high-quality code under tight Agile deadlines.

EDUCATION

Wilmington University, Wilmington, DE

Master of Science in Computer and Information Systems – 2024

Amrita Vishwa Vidyapeetham, India

Bachelor of Technology in Computer Science and Engineering – 2021

CERTIFICATIONS

- AWS Certified Developer – Associate
 - Microsoft Certified: Azure Developer Associate (AZ-204)
 - Microsoft Certified: Azure Fundamentals (AZ-900)
 - Google Cloud Digital Leader – GCP
 - Scrum Foundation Professional Certificate (SFPC)
-
