Professional Summary

Data-driven science professional with experience in data analysis, quality assurance, and reporting within regulated environments. Proficient in Microsoft Excel, data validation, and technical documentation, with a track record of producing accurate, actionable insights. Strong communicator who collaborates effectively with cross-functional teams to support business objectives. Seeking to transition into a Data Analyst role to apply analytical rigor and scientific problem-solving in a data-driven organization.

Technical Skills

- **Software:** Microsoft Excel (pivot tables, data visualization, XLOOKUP), SQL (mySQL, IBM Db2), Microsoft Word, Empower, IFS, SAP ERP
- **Analytical Techniques:** HPLC/UPLC, Karl Fischer, UV/VIS, FTIR, TOC, Endotoxin
- **Lab Expertise:** HPLC System maintenance, Compendial Testing, Reagent Preparation, Bench Chemistry, Plate-Based Assays
- **Documentation & Compliance:** cGMP (Current Good Manufacturing Practices), cGDP (Current Good Documentation Practices), cGLP (Current Good Laboratory Practices), Regulatory Compliance, ICH Guidelines, HIPAA Compliance
- **Other:** Data Analysis, Laboratory Investigations, Administrative Support, Customer Service

Experience

Quality Control Analyst II — Abzena, Bristol, PA

June 2023 - PRESENT

- Performed compendial and analytical testing on in-process and bulk drug products (biologics, ADCs, AOCs, vaccines) supporting Phase I to III clinical stability studies within a CDMO (Contract Development and Manufacturing Organization)
- Conducted data review and analysis, trending results to transform raw laboratory data into actionable insights.
- Compiled Data and developed Excel-based data visualizations and authored analytical reports, Certificates of Analysis (CoAs), and Certificates of Testing (CoTs) for stakeholders
- Executed test method qualification and validation protocols, as well as equipment qualification activities in compliance with regulatory standards.
- Supported laboratory operations including lab maintenance, reagent preparation, document control, and HPLC/equipment maintenance
- Investigated atypical and out-of-trend results, contributing to root cause analyses and data integrity improvements.
- Promoted from QC Analyst I in April 2025 (similar duties)

Chemical Process Operator — Hikma Pharmaceuticals, Cherry Hill, NJ

July 2021 – June 2023

- Manufactured liquid pharmaceuticals through precise batching and weighing of raw materials
- Maintained accurate documentation per cGMP and supported corrective actions for process improvements
- Conducted pH testing and acid/base adjustments in compliance
- Equipment maintenance/cleaning as directed per company SOP
- Maintained strict adherence to SOPs, cGMP, and cGDP practices

Certified Pharmacy Technician — Walmart Pharmacy, Somerdale, NJ

April 2018 – August 2021

- NHA Certified
- Processed pharmacy claims, prior authorizations and administered vaccines to patients
- Update patient and provider information as needed
- Clerical work (e.g., data entry, filing documentation and answering phones)
- Upheld state & federal laws as well as company standards of practice
- Provided excellent customer service and supported front-end operations

Education**IBM Professional Data Analyst Certificate**, Coursera, (Pending)**SQL Data Associate Certificate Program**, DataCamp, (May 2025 - Aug 2025)**Elizabeth City State University**, Elizabeth City, NC — Bachelor's of Science in Pharmaceutical Science, (August 2013 - May 2017)

Pharm. Sci. program focuses on scientific disciplines that are critical to the development of drugs/therapies, good clinical practices in clinical trials, and lab-based research. This program enhanced my lab technique, critical thinking, and data analysis skills by incorporating coursework such as chemistry, biochemistry, and pharmaceutical analysis.

Lindenwold High School, Lindenwold, NJ — High School Diploma, (September 2009 - June 2013)
