EDUCATION

University of California, Irvine

Bachelor of Science in Mathematics with a concentration in Biology

June 2025

Programming Skills: Python, MATLAB, R, Mathematica, LaTeX

WORK EXPERIENCE

UCI Anteater Recreation Center, Irvine, CA

Lifeguard

April 2023 – Present

- Monitor safety and respond to real time emergencies in high traffic environments. Demonstrate ability to troubleshoot under pressure and ensure protocol compliance.

UCI Department of Mathematics, Irvine, CA

Lead Learning Assistant for Pre-Calculus and Single Variable Calculus

September 2021 – June 2025

- Collaborated with faculty to coordinate resource development and strategy execution, improving engagement and comprehension. Mentored 10+ students a quarter in calculus courses through interactive support including office hours and review sessions.

California Policy Lab Internship, Remote

June 2023 - August 2023

Data Analyst Intern

- Executed independent research project analyzing large scale healthcare debt dataset to uncover national trends using the UC-CCP dataset; findings identified causes leading to increased economic strain from medical expenses impacting vulnerable populations nationwide.

RESEARCH EXPERIENCE AND PROJECTS

Independent Reading Program In Mathematical Biology, Irvine, CA

April 2024 - June 2024

- Modeled cell population dynamics using the Gillespie Algorithm and Bursty Gillespie model, applying stochastic simulation and Bayesian computation to analyze biological variability, leading to a 20% improvement in prediction accuracy for cell behavior in fluctuating environments.

AnteaterMath Insights: Exploring Students' Experiences In Math 13, Irvine, CA

January 2024 - June 2024

- Conducted survey based research on curriculum development for an introductory abstract math course at UCI, integrating feedback from interviews of 50+ past students to enhance learning outcomes and streamline pathways for math majors, contributing to curriculum redesign efforts.

Independent Reading Program In Machine Learning, Irvine, CA

April 2023 - June 2023

- Engaged in weekly discussions of the mathematical principles of machine learning and presented two comprehensive presentations focusing on the Logistic Regression and Decision Tree Algorithms, effectiveness in predictive modeling.

LEADERSHIP EXPERIENCE

Undergraduate Mathematics Committee (UMC), Irvine, CA

Co-President

June 2024 – June 2025

Co-Founder, Vice President

June 2023 – June 2024

- Organized and led weekly professional and social events, including graduate student panels, faculty research talks, and academic workshops, resulting in an average of 40 students per event; awarded a \$300 Advancing Inclusive Excellence Award from the School of Physical Sciences to enhance the undergraduate mathematics community and increase engagement in the UCI math community.

Swim Club at UCI, Irvine, CA

Co-President

June 2024 – June 2025

Vice President

May 2023 – June 2024

- Led club operations, including managing budget, practice schedules, coaching, travel plans, and outreach events, while fostering team unity through bonding activities and coordinating swim meets with other universities; collaborated with 10 officers to triple membership from 30 to 100 within 2 years, driving significant growth and engagement.

Association For Women in Mathematics, UCI Chapter, Irvine, CA

Undergraduate Event Coordinator

June 2023 – June 2024

- Collaborated closely with association members to plan and organize 2-3 undergraduate events per quarter, fostering increased engagement and participation within the organization and ensuring a diverse range of events tailored to student interests and professional development.
