

EMMANUEL NNADI

Chicago, IL | 312-897-9803 | nnadie96@yahoo.com | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

- **Languages:** Java, Python, SQL, C#, PHP
- **Web Technologies:** JavaScript, HTML, CSS, Bootstrap, React.js, Thymeleaf
- **Frameworks:** ASP.NET Fundamentals, Spring Boot, FastAPI, Node.js, Visual Studio
- **Cloud & DevOps:** AWS (EC2, S3, Lambda), Microsoft Azure, Docker, Terraform, CI/CD, Railway
- **Databases:** PostgreSQL, MySQL, SQL Server
- **Tools & Methods:** Git, REST APIs, Agile/Scrum, Test-Driven Development (TDD), Debugging, UI/UX Optimization
- **AI & ML:** LLM Integration, Natural Language Processing, Azure OpenAI

PROFESSIONAL EXPERIENCE

REVATURE

Jan 2025 - Mar 2025

Backend Developer Intern

Remote

- Implemented Test-Driven Development (TDD) practices across two projects, reducing bug count by 85% and achieving 100% test coverage.
- Developed and maintained web application logic utilizing C# and Java, ensuring optimal functionality and user experience.
- Collaborated with cross-functional development teams using Agile methodologies to deliver high-quality software solutions.

CDW Corporation

May 2024 - Aug 2024

Associate Consulting Engineering Intern - Cloud Engineer

Chicago, IL

- Automated infrastructure provisioning with Terraform scripts for AWS deployments, reducing deployment time by 10% and manual errors by 25%.
- Deployed secure, scalable AWS EC2 compute environments for development and testing using Infrastructure as Code principles.
- Implemented CI/CD pipelines and containerization strategies using Docker for streamlined application deployment.

Latin X Digital Leaders Now

Jan 2024 - Apr 2024

Software Development Intern

Remote

- Designed scalable API prototypes using FastAPI and Python, reducing response latency by 30%.
- Integrated third-party services server-side using Azure OpenAI API to enhance application data capabilities and automated customer inquiries.

TECHNICAL PROJECTS

Radiance Bag E-Commerce Platform

- Technologies: Java, Spring Boot, PostgreSQL, Thymeleaf, Spring Security
- Built full-stack e-commerce application with user authentication, role-based access control (admin/customer), and secure CRUD operations.
- Implemented RESTful APIs for product management and order processing with comprehensive error handling.
- Deployed to Railway with automated CI/CD pipeline, maintaining 100% uptime with Git version control.

AI Account Assignment System

- Technologies: Python, Machine Learning, Azure OpenAI, NumPy, Pandas
- Implemented GradientBoostingClassifier to match users to account managers with 100% accuracy based on skill profile analysis.
- Integrated Azure OpenAI API to enhance virtual assistant NLP capabilities, improving response accuracy by 90%.
- Built Excel-based tracking system with NumPy for efficient account assignment management.

Job Market Data Analysis Tool

- Technologies: Python, Pandas, NumPy, Data Visualization
- Analyzed 100+ job postings to identify top 10 in-demand technologies, revealing Python and Java as highest-demand skills.
- Applied data preprocessing techniques including imputation and standardization across 10 variables for improved analysis quality.

EDUCATION

Dominican University

Dec 2024

Bachelor of Science, Computer Science

River Forest, IL

- **Coursework:** Data Structures & Algorithms, Software Engineering, Database Systems, Cloud Computing, Artificial Intelligence, Computer Vision, Operating Systems, Web Development (Client & Server-Side)
