PROFESSIONAL SUMMARY

Java Full Stack Developer with over **4+ years of experience** building and supporting enterprise-grade applications for US-based clients. Strong expertise in **Java, Spring Boot, Microservices, AEM, and modern front-end frameworks (React, Angular)**. Proven ability to design scalable backend services, develop reusable AEM components, and deliver high-quality solutions in Agile environments. Recognized for ownership, clean code, and effective collaboration with cross-functional teams, product owners, and stakeholders.

TECHNICAL SKILLS

Backend Technologies	: Java 8/11/17, Spring Boot, Spring MVC, Spring Security, Microservices, REST APIs, Hibernate, JPA, Maven, Gradle
Frontend Technologies	: React, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap
AEM	: AEM Sites, Components, Templates, Sling Models, OSGi Services, JCR, CRXDE, Dispatcher, Workflows
Databases	: MySQL, PostgreSQL, MongoDB, Oracle
Cloud & DevOps	: AWS (EC2, S3, RDS, Lambda), Docker, Kubernetes, Jenkins, GitHub Actions, Git, Bitbucket
Tools & Practices	: Postman, Swagger, JUnit, Mockito, Kafka, RabbitMQ, CI/CD Pipelines, Agile/Scrum

PROFESSIONAL EXPERIENCE

Java Full Stack Developer | AEM Developer

PixelWave Digital — USA | May 2024 – Present

- Develop and maintain full-stack features using Java, Spring Boot, React, and Adobe Experience Manager (AEM).
- Design and implement custom AEM components, templates, Sling Models, and OSGi services to support content-driven applications.
- Integrate AEM with backend microservices to enable dynamic and personalized content delivery.
- Build and maintain RESTful APIs supporting high-traffic production systems.
- Improve application performance through caching strategies, refactoring, and database optimization.
- Collaborate closely with US-based product owners, business analysts, designers, and QA teams.
- Participate in Agile ceremonies, architecture discussions, and peer code reviews.
- Support production deployments, release activities, and post-deployment validation.

Key Contributions:

- Improved AEM page load performance by optimizing component rendering and reducing redundant API calls.
- Enhanced backend API response times through service-level optimizations and efficient database queries.

- Contributed to smoother release cycles by coordinating effectively with QA and DevOps teams.

Environment Tech: Java, Spring Boot, AEM, Sling Models, OSGi, React, REST APIs, MySQL, AWS, Docker, Kubernetes, Git, Jenkins

Java Full Stack Developer

Tata Consultancy Services (TCS) | Tamil Nadu, India | Feb 2021 – Jul 2023

- Developed and enhanced microservices using Spring Boot, Spring Cloud, Eureka, and API Gateway.
- Built and integrated front-end components using Angular and React with backend REST APIs.
- Implemented authentication and authorization using Spring Security and JWT.
- Designed reusable UI modules and improved front-end performance for customer-facing applications.
- Worked with relational and NoSQL databases to support large-scale client data processing.
- Wrote unit tests using JUnit and Mockito to ensure code quality and reliability.
- Collaborated with US-based product owners, QA teams, and business analysts in an Agile environment.
- Assisted with production issue resolution, root cause analysis, and system stability improvements.

Key Contributions:

- Reduced UI rendering time by optimizing Angular and React components.
- Improved application stability by enhancing logging, monitoring, and exception handling.
- Increased maintainability by refactoring legacy code and reducing technical debt.

Environment Tech: Java, Spring Boot, Spring Cloud, Angular, React, JavaScript, TypeScript, MySQL, MongoDB, JWT, Git, Jenkins, Docker

EDUCATION

Master of Science, **Information Technology and Management**

Concordia University St. Paul- St. Paul, Minnesota | Sep 2023- Dec 2024

CERTIFICATIONS

- AWS Certified Developer – Associate
- Oracle Certified Java Programmer
- Adobe AEM Developer
- Spring Professional Certification
