EDUCATION

Boston University College of Arts and Sciences

Graduation Year: May 2024

Major: Computer Science

Boston, MA

Courses: Data Structures, Object-Oriented Programming, Software Development, Mobile Application Development, Computer Systems, Machine Learning and AI, Analysis of Algorithms, User Design Principles, System Architecture

WORK EXPERIENCE

Mirage, Boston, MA

May 2023 – December 2023

Frontend Engineer Intern

- Collaborated with cross-functional teams and key stakeholders to translate feature specifications into maintainable, extendable code using **React** and **Next.js**
- Delivered 20+ interactive web components that enhanced the customer experience, resulting in a 25% increase in user engagement and a 40% rise in lead conversion rates
- Spearheaded the integration of HubSpot's CRM database through RESTful APIs, enabling real-time user data and actionable insights that boosted engagement and product value
- Actively participated in daily scrums, code reviews, and sprint planning, providing operational support and performing root cause analysis to resolve issues promptly

FanPad, Chicago, IL

June 2022 – August 2022

UI/UX Design Intern

- Led a major redesign of the product website, focusing on a mobile-first approach using **Angular**, enhancing user engagement during events and product launches
- Developed scalable front-end components and revised 15+ wireframes and prototypes, incorporating iterative user feedback and stakeholder input to improve UX
- Conducted 5+ user testing sessions to gather actionable feedback during the development process, informing subsequent sprints and contributing to the iterative improvement of the product

Apple, Boston, MA

June 2022 – March 2023

Specialist

- Delivered exceptional customer service by assessing user needs and providing tailored technical solutions, exemplifying a customer-obsessed approach
- Enhanced technical troubleshooting and problem-solving skills, ensuring rapid issue resolution and maintaining high customer satisfaction

PROJECTS

Igloo – Mobile Application for Reducing Food Waste

Product Owner/Scrum Master

- Developed a user-centric mobile application for fridge organization and meal planning, leveraging proactive tracking and smart reminders to reduce food waste
- Led a cross-functional Agile team, managing CI/CD pipelines, daily scrums, and iterative development to deliver robust, scalable features
- Implemented core functionalities including Recipe Search, Product Lookup, Social Interaction, and Fridge Inventory using **Kotlin** and various APIs

SKILLS

Programming Languages: **JavaScript, HTML, CSS, Python, TypeScript, Kotlin, SQL**

Frameworks, Libraries, and Tools: **React, Next.js, Angular, Node.js, MongoDB**
