SUMMARY

Dedicated and highly skilled .NET (Dot Net) developer with 5+ years of experience in designing, developing, and maintaining robust applications using the .NET framework. Proficient in C#, ASP.NET, MVC, Web API, and SQL Server. Adept at collaborating with cross-functional teams to deliver scalable and efficient solutions.

- Hands-on experience in domains like Finance and Manufacturing.
- Outstanding .NET full-stack developer with proven expertise in all phases of SDLC.
- Developed and maintained software applications using C#, ASP.NET, .NET Core, JavaScript, HTML5, CSS3
- Experience in designing and implementing Single Page Application with Angular.
- Strong experience in developing SQL queries, functions, stored procedures, triggers, and views.
- Experience in designing and implementing AWS Solutions using EC2
- Used Agile Methodology during rewriting the application and adding new features to the application.
- Have good knowledge on different databases like PostgreSQL, MySQL, DB2, Oracle 13c/11g, Microsoft SQL Server, NoSQL DB (Raven DB, Mongo DB and Cassandra, Couch DB, Redis)

TECHNICAL SKILLS

- **Operating Systems Design Pattern:** MS Windows XP, Vista, MVC, MWVM, Singleton, Factory, Repository
- **Microsoft .NET Front-End:** HTML5, CSS3, jQuery, MVC, ASP.NET, AngularJS, ADO.NET, Bootstrap, AJAX, XML, JSON, WCF, LINQ
- **Microsoft .NET Backend:** C#, JavaScript, TypeScript, Entity Framework, Web API, IIS
- **Cloud DevOps:** AWS, Azure, Docker, Kubernetes, GitHub, CI/CD
- **Web Services Version Control:** SOAP, RESTful, TFS, GIT
- **Data Mining Analytical Tools Integration Servers:** SAS, R, Python, Google Analytics, Excel, Jenkins, Docker
- **Programming Languages:** Java, Python, C, C++,

EXPERIENCE

.Net Developer (Dot Net)

Western Union

Jul 2024 – Present

Austin, Tx

- Designed client-side and server-side validation checks, session management, and efficient data access management using ASP.NET, MVC.
- Implemented rich content front-end using Angular, HTML5, CSS3 and build back-end using C# .NET, ASP.NET web API. Wrote SQL queries procedures, triggers and functions
- Developed Web APIs in .Net Core EF Core platform creating unit testing
- Effectively coded in C# .NET using .NET techniques like lazy loading, reflection.
- Experience in bug tracking, issue tracking using Jira.
- Worked on Visual Studio .Net CORE Framework to implement Business Logic.
- Expertise in data driven applications with databases MS SQL Server and Oracle with T-SQL and PL/SQL
- Involved in Creating SQL Server database to responsively handle .NET data access components and created the dynamic schema by using NoSQL. Worked on developing a different module with Angular 2 which will be run on Node JS server and some modules developed using Angular 2 and React JS.
- Worked on the RESTful API to create the services and tested on Fiddler and Used Angular JS to create the views.
- Integrated JavaScript libraries React-Bootstrap, High charts, Data tables
- Experienced in designing and implementing AWS Solutions using EC2
- Used Agile Methodology during rewriting the application and adding new features to the application.

.Net Developer (DotNet)

Honeywell

May 2023 - Apr 2024

(Remote) MO

- Designed and developed Hybrid-Single Page Web Application using C#, .NET Framework, ASP.NET MVC 5, and AngularJS.

- Participated in UI design with Master Pages in MVC 5 and improved layout with HTML5, Bootstrap, and CSS3.
- Used AngularJS, JavaScript to develop templates, controllers, and directives.
- Wrote SQL queries, stored procedures, and SSRS reports to track Overall Equipment Effectiveness (OEE) and production KPIs.
- Provided database connectivity using Entity Framework, LINQ, designed stored procedures and views at the back end.
- Generated data migration and transformation using SSIS, and built reports with SSRS.
- Used JSON web token to do user authentication and secure information exchange.
- Designed unit testing module with NUnit to test the application performance and availability
- Experience in designing and implementing AWS Solutions using EC2
- Heavily involved in code review, build and deployment with GIT, Jenkins.
- Worked in Agile Scrum methodology and delivered accepted functionality in each sprint.

.Net Developer (Dot Net)

Accenture Pvt Ltd

Jul 2021 - Dec 2022

Bengaluru, India

- Involved in Creating Core Functionality with ASP.NET MVC FRAMEWORK.
- Designed Rich UI for ASP.NET Web Applications using JavaScript FRAMEWORK (jQuery, Node.js) in C# and VB.
- Designed, architected and developed Web Service replacement using ASP.Net, MVC4, WCF Rest, C 4.5.
- Performed Unobtrusive JavaScript Validation and JQuery validation to Validate Form Fields on Client Side.
- Implemented Controllers to transfer data between Views and Models.
- Created Tables, CTE, Indexes, Triggers, Views, joins using SQL SERVER. Created Jobs, packages and Reports on SQL SERVER. Developed a code generator software that essentially built SQL, and Oracle DB.
- Worked on NoSQL Databases like Raven DB, Mongo DB and Cassandra, Couch DB, Redis, Dynamo DB.
- Implemented Authentication for NO SQL DB through Cassandra connection scripts for enabling the script to run.
- Implemented MVVM pattern to create MVVM user controls.
- Deployed Back-End DB to Azure Cloud Service. Migrated SQL Server DB to SQL Azure DB using SQL Azure Migration Wizard.
- Used Team Foundation Server (TFS), Test Driven Development (TDD) project related document sharing and Team Collaboration.

.Net Developer

SantroTech

May 2019 - Jun 2021

India

- Designed and implemented application using C#, ASP.NET MVC with Razor View Engine, jQuery, AJAX, HTML, JavaScript.
- Optimized in-application SQL statements and utilized SQL Profiler to profile server resource usage and optimize it. Work closely with the DBA to deploy SSIS and SSRS packages.
- Utilized .Net MVC 3.0 (Razor), Entity Framework, Code-First Approach, Partial View and SQL Server 2008 R2.
- Performed automation engineer tasks and implemented the ELK stack (Elasticsearch, Fluentd, and Kibana) for AWS EC2 hosts.
- Utilized Kubernetes and Docker for the runtime environment of the CI/CD system to build, test deploy.
- Involved in modifications to the XML requests and response as per the Business Requirements.
- Designed tested implemented and supported VB.NET-PL/SQL Oracle programs for payments processing data analysis QA and data mining.
- Used Curator API on Elasticsearch to data back up and restoring.
- Worked in Agile Scrum methodology and delivered accepted functionality in each sprint.

EDUCATION

University of Cincinnati | *Master's in Information Technology* | **GPA: 3.8/4**

GITAM University | *Bachelor's in ECE* | **GPA: 3.5/4**

CERTIFICATIONS

- AWS Certified Associate Developer
