EDUCATION

Stevens Institute of Technology

M.S. in Computer Science, GPA: 3.7

Expected December 2026

Hoboken, NJ

Lycoming College

B.A. in Computer Science, GPA: 3.0

December 2024

Williamsport, PA

Coursework: Computer Organization & Programming, Database Management Systems, Web Programming, Data Structures & Algorithms, Software Engineering, Operating Systems, Mobile Application Development, Object-Oriented Programming

Extracurriculars: Division 3 Collegiate Soccer Player, Academic Dean's List 2023 & 2024

TECHNICAL SKILLS

Languages: Java, C, SQL, JavaScript, React, HTML, CSS

Frameworks & Tools: Spring Boot, Eclipse, MongoDB, JPA, GitHub, REST APIs

Technical Concepts: Distributed Systems, Client-Server Architecture, Cloud Computing, Software Design, Performance Optimization

Professional Strengths: Analytical thinker, collaborative team player, organized, detail-oriented, strong problem-solver

EXPERIENCE

Revature Training Program

Software Developer Trainee

Feb 2025 – May 2025

Remote

- Built a Spring Boot REST API supporting user authentication, CRUD operations, and data validation using MVC and JPA
- Designed RESTful endpoints consumed by a React-based front end to ensure seamless data integration and maintainability
- Conducted unit testing via JUnit and collaborated in code reviews within Agile Scrum sprints to ensure code quality

Delivery Driver

Amazon

Feb 2025 – Present

Holbrook, NY

- Managed time-sensitive delivery routes, consistently meeting deadlines while maintaining high customer satisfaction

Rehabilitation Aide

Orlin & Cohen

Apr 2026 – Present

Bohemia, NY

- Assisted patients through rehabilitation exercises and provided attentive care in a fast-paced clinical environment

PROJECTS

Revature REST API | *Java, Spring Boot, JPA, React, JUnit, Agile/Scrum*

- Built a Spring Boot REST API with user authentication, CRUD operations, and data validation using MVC and JPA patterns
- Designed RESTful endpoints consumed by a React front end; ensured quality through JUnit testing and Agile code reviews

Fantasy Powerball | *Java, Sockets, Distributed Systems, Client-Server Architecture*

- Developed a Java-based distributed client-server simulation using sockets for high-performance, real-time lottery processing
- Engineered server-side logic for jackpot calculations and input validation while managing simultaneous client entries
- Optimized system architecture for scalability and efficiency to handle concurrent data streams and real-time outputs

Media Player | *Android, Java, Mobile UI/UX*

- Built an Android application featuring music playback, playlist management, and structured UI components
- Designed navigation frameworks focused on smooth cross-device performance and usability
- Applied user-centered design principles and conducted usability testing to ensure a high-quality mobile experience

LEADERSHIP & ACTIVITIES

Division 3 Collegiate Soccer Player | *Lycoming College*

2020 – 2024

- Competed at the collegiate level while maintaining academic excellence, earning Dean's List recognition in 2023 and 2024
