Data & Business Analyst with 5+ years of experience in data analysis, dashboarding, requirements gathering, and process optimization across high-volume environments. Proficient in SQL, Power BI (DAX, Power Query), Snowflake, Python, Agile/Scrum, BRD/FRD authoring, and cross-functional stakeholder management. Delivered measurable outcomes: 30% reduction in reporting effort, 20% improvement in data integrity, and 25% reduction in requirement ambiguity across multiple enterprise initiatives.

EXPERIENCE

University of South Dakota

01/2025 – 05/2026

Business Data Analyst

Vermillion, SD, USA

- Gathered and documented requirements for 5+ academic and research initiatives, producing BRDs, process flow diagrams, and requirement artifacts, reducing ambiguity and accelerating delivery alignment across departments.
- Designed and maintained Power BI dashboards (DAX, Power Query) tracking student performance KPIs, automating weekly reporting and reducing faculty manual tracking effort by ~20%.
- Queried and analyzed 1,000+ record academic datasets using SQL and Python (Pandas), improving data accuracy and enabling audit-ready reporting across multiple course analytics projects.
- Identified bottlenecks in manual and automated academic workflows, contributing to process improvements that reduced reporting delays and administrative effort by 10–15%.
- Mentored and coached 100+ students per semester on SQL, AI/ML, and data analysis techniques through structured technical feedback, improving analytical skill development and ensuring consistent evaluation standards.

Accenture

09/2022 – 09/2024

Business Analyst

Hyderabad, India

- Led requirements gathering for 5+ initiatives in content operations and data quality domains, authored BRDs, FRDs, user stories, and process maps reducing requirement ambiguity by 25% and accelerating delivery timelines.
- Designed advanced SQL queries (Joins, CTEs, Subqueries) for data validation and anomaly detection across 10K–50K+ row datasets, reducing data errors by 20% and improving overall reporting reliability.
- Built interactive Power BI dashboards (DAX, Power Query) tracking KPIs and quality metrics, reducing manual reporting effort by 30% and enabling real-time leadership visibility for data-driven decisions.
- Queried Snowflake data warehouses and CRM systems across 10,000+ records to surface actionable operational insights, supporting trend analysis and stakeholder decision-making.
- Performed high-volume content quality analysis via Sprinklr and EWOQ, reviewing 3,000+ records/day (~75K+/month) at 98%+ accuracy, maintaining SLA compliance and regulatory adherence.
- Conducted end-to-end process analysis and workflow optimization, implementing improvements that reduced turnaround time by 15–20% and enhanced operational scalability.
- Collaborated in Agile (Scrum) ceremonies, including sprint planning, stand-ups, and retrospectives, to resolve blockers, standardize workflows, and consistently meet SLA and KPI targets.

Divya Swaroopa Financial Pvt. Ltd

01/2021 – 08/2022

Junior Business Analyst / CRM Operations

Chennai, India

- Managed end-to-end onboarding workflows for 200+ clients, reducing cycle time by 15% while maintaining 100% documentation accuracy and achieving zero audit findings.
- Analyzed customer datasets using Advanced Excel (Pivot Tables, XLOOKUP, data validation) and SQL, generating actionable insights that improved reporting efficiency and supported data-driven decisions.
- Governed CRM data integrity through systematic validation and reconciliation between Excel and CRM records, improving data accuracy to 98%+ and reducing errors by 20%.
- Led process analysis and workflow optimization with cross-functional teams, resolving operational bottlenecks and achieving 98% client satisfaction across 200+ client interactions.

SKILLS

- Business Analysis:** Requirements Gathering, BRD, FRD, User Stories, Acceptance Criteria, Gap Analysis, Process Mapping, UAT, SDLC, Stakeholder Management
- BI & Visualization:** Power BI (DAX, Power Query, RLS), Tableau, Excel (Pivot Tables, XLOOKUP, Data Validation, Conditional Formatting)
- Databases & Querying:** Snowflake (Cloud Data Warehousing), SQL (Joins, CTEs, Subqueries, Window Functions), SAP, ERP, CRM Systems
- Programming & Analytics:** Python (Pandas, NumPy, Matplotlib), Data Analysis, Anomaly Detection, KPI Reporting, Market Analysis
- Project Management:** Agile (Scrum, Sprints), JIRA, Confluence, Workflow Automation, Cross-functional Collaboration

EDUCATION

University of South Dakota

09/2024 – 05/2026

Master of Science in Computer Science

AKNU University

06/2018 – 04/2021

Bachelor of Science in Computer Science

CERTIFICATIONS

Google Data Analytics Certificate, Coursera • SnowPro® Advanced: Data Analyst, Snowflake • Professional Scrum Master I (PSM I), Scrum.org
