EDUCATION

Cornell University

Graduated May 2025

*Computer Science Major (B.A.), 3.77 GPA
Focus on Computer Graphics and Game Development*

INTERNSHIP AND PROFESSIONAL EXPERIENCE

Cornell University College of Information Science Ithaca, NY

2024-2025

Teacher's Assistant in Data Structures and Functional Programming, Intro to Computer Graphics, and Intro to Computer Game Architecture

- Graded projects and exams, held office hours, and gave project advice/feedback
- For *Intro to Computer Game Architecture*, responsibilities also included running labs and class presentation sessions, as well as giving regular feedback on game design

Luminetik Animation and Games Santa Monica, CA

Summer 2023

VFX/Technical Art Intern

- Used Unreal Engine's Live Link to help prototype placeholder animations for upcoming animated Television show, and contributed toward VFX demos

Urban Harvester & HUMANist Los Angeles, CA

Summer 2020

Data Collection Intern

- Wrote and edited surveys/cleaned data; served to collect information of food pantries and banks in the Los Angeles area to address issues arising from the Covid-19 pandemic

PROJECTS & EXTRACURRICULARS

Indie PC Game (*Catacombs*, now on [Steam](#))

Spring 2024

- Project lead and programmer for team of 8 working on a 2D action game/top-down "shooter"
- Game was made with the LibGDX engine/framework, coded in Java
- Won "Most Polished PC Game" at GDIAC Showcase 2024

Indie PvP/Networked Mobile Game (*Apathia*, to be released in late 2025)

2025

- Programmer for team of 9; coded unit interaction logic and graphics effects/shaders, contributed to unit design/balance, UI implementation, and various other aspects of the game
- Game was made with CUGL (a lightweight game library built on SDL), coded in C++

For other projects, check out my portfolio at lwdaniels.github.io
