

OLUWALEKE OBAYEMI

FULL-STACK ENGINEER

Columbus, OH | (614)-359-6399 | leke.obas@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full-Stack Software Engineer experienced in building and deploying production-ready systems using Java, Spring Boot, PostgreSQL, Redis, and AWS. Strong focus on backend architecture, RESTful APIs, real-time systems, and cloud deployment with CI/CD automation.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript

Backend & APIs: Spring Boot, Spring Security, RESTful API

Frontend: React Native (Expo)

Databases & Caching: PostgreSQL, MongoDB, Firebase, Redis

Cloud & DevOps: AWS (EC2, RDS, ElastiCache, ECR, S3), Docker, GitHub Actions, CI/CD

Testing & Tools: JUnit, Spring Boot Testing (MockMvc), Postman, Apache JMeter

Development Practices: Version Control (Git), Agile Methodologies

PROJECTS

Restaurant Online Ordering Platform

Java, Spring Boot, PostgreSQL, MongoDB, Redis, AWS, Docker, Stripe

- Built a production-grade RESTful backend, owning authentication, business logic, API contracts, and data access layers for a cross-platform restaurant ordering system.
- Designed a hybrid data model using PostgreSQL for relational data and MongoDB for image metadata.
- Implemented Redis caching (menus, user sessions, active orders) to reduce database load and improve response latency.
- Added real-time order status updates using Server-Sent Events (SSE).
- Integrated Stripe Payments, handling payment intents and backend authorization logic.
- Deployed a Dockerized Spring Boot service to AWS EC2 with RDS, ElastiCache, ECR, and CI/CD via GitHub Actions.
- Performed unit, integration, and load testing using JUnit, MockMvc, and Apache JMeter to validate correctness and capacity needs.

Snow Troopers On-Demand Snow Removal Platform

Java, Spring Boot, AWS, Docker, Firebase, Stripe

- Built an on-demand platform connecting customers with contractors, owning backend APIs, business logic, and integrations.
- Implemented Firebase Authentication, Stripe payment splitting, and real-time job tracking.
- Deployed a Dockerized backend on AWS and implemented secure file uploads with ClamAV and S3.
- Developed a React Native (Expo) frontend supporting mobile and web clients.

WORK EXPERIENCE

Work-Study Student Assistant

College of Arts and Sciences Office of Distance Education – The Ohio State University

March 2023 – April 2025

- Supported OSU's production academic platform (CarmenCanvas) by assisting faculty with content delivery and technical troubleshooting.
- Maintained and updated a Drupal-based website, creating and managing structured content.
- Followed established content deployment workflows, ensuring consistency, accuracy, and accessibility.
- Collaborated with faculty, staff, and technical teams in a process-driven environment.

EDUCATION

The Ohio State University – Bachelor of Science in Computer & Information Science

August 2025
