Data Analysis with R Programming - Coursera - Completion November 2021

Analyze Data to Answer Questions – Coursera - Completion October 2021

Ask Questions to Make Data-Driven Decisions – Coursera - Completion October 2021

Foundations: Data, Data, Everywhere – Coursera - Completion October 2021

Prepare Data for Exploration - Coursera - Completion October 2021

Process Data from Dirty to Clean – Coursera - Completion October 2021

Share Data Through the Art of Visualization – Coursera - Completion October 2021

Training:

ITIL 4 Foundation - Syracuse University O2O Program - Completion done by July 2023

Core Competencies

Data Analysis | Data Visualization | Data Cleaning | Statistical Analysis | Data Modeling | Data-Driven Decision Making | Customer Segmentation | (CRM) System Management

Professional Experience

“Promoted To” – Sales Brand Analyst, Zen Asset Management, Lacey, WA **Apr 2023-Present**

Acted as a liaison between Sales and Operations, fostering seamless communication. With a customer-centric approach, I embody the organization brand to internal and external customers. My dedication and positive attitude contribute to driving sales growth and building lasting relationships.

Highlights or Key Results

- Successfully managed and updated the traceability store front, ensuring all products available for sale were accurately listed, leading to a 20% increase in online sales.
- Worked closely with internal Analysts to identify top-selling SKUs for each store, resulting in an increase in sales for Vendor Day and New Retail Store orders.
- Developed and implemented a visual management system for Vendor Managed Inventory (VMI), resulting in a reduction in stockouts and an increase in inventory turnover for customers.
- Ensured real-time updates of customer information in the CRM system, improving data accuracy by 20% and enabling more effective customer engagement.

“Promoted To” – Logistic & Financial Data Analyst, Zen Asset Management **Jul 2022-Apr 2023**

Data analyst with expertise in collecting, organizing, and analyzing complex datasets from diverse sources. Proficient in creating visually appealing reports and dashboards using Power BI, resulting in improved data accessibility, insightful market trends identification, and enhanced decision-making processes. Eager to collaborate with cross-functional teams and contribute to data-driven strategies for your cannabis business.

Highlights or Key Results

- Developed and deployed dynamic data extraction, transformation, and loading processes, leveraging Power BI. This resulted in significantly improved data accessibility, a 35% increase in user engagement, and saved time through automation.
- Implemented sophisticated visual filters in Power BI to analyze sales and quantity data across specific geographic areas such as counties and cities. This enhanced decision-making capabilities and contributed to increased future sales in targeted regions.
- Designed interactive dashboards that allowed stakeholders to drill down into specific data points, revealing crucial insights into sales trends and patterns. This led to a better understanding of market dynamics and facilitated informed decision-making.
- Created visually appealing Power BI visualizations for various business needs, including Available Inventory, Daily Sales Report, Delivery Calendar, Priority Products, and Vendor Information. These insightful reports aided in identifying opportunities for growth and improving operational efficiency.

Delivery Driver, Zen Asset Management**May 2019-Jul 2022**

Collaborate with data information to ensure accurate and timely delivery of goods to support data-driven decision-making. Utilize data analysis tools to optimize delivery routes, reduce costs, and increase efficiency. Communicate effectively with data analysts to identify trends and patterns in delivery data and provide insights to improve the delivery process.

Highlights or Key Results

- Coordinated inventory and invoicing for daily deliveries, ensuring quality control checks of up to \$50k of product per day, resulting in a reduction in inventory errors and an increase in on-time deliveries.
- Generated manifestos for each store, containing schedule, driver/vehicle info, and product description, resulting in a 25% improvement in delivery accuracy and an increase in overall customer satisfaction.
- Transported goods and supplies safely and on time between facility locations, resulting in a 100% on-time delivery rate and a 0% incident rate for damaged goods.

Quality Control Coordinator, Dawn Enterprise, Blackfoot, ID**Jul 2018-Oct 2018**

Utilize data analysis tools to identify quality issues, track performance metrics, and drive continuous improvement. Communicate effectively with stakeholders to identify trends and patterns in quality control data and provide insights to improve the overall quality management system.

Highlights or Key Results

- Conducted product inspections to ensure quality control standards are met, resulting in a reduction in product defects and an increase in customer satisfaction ratings.
- Prepared detailed reports on random materials prior to full production and shipping, documenting any errors, discrepancies, or quality issues, resulting in a 50% reduction in material waste and a 15% improvement in on-time deliveries.
- Removed products and materials that did not meet established guidelines, resulting in a 30% reduction in product recalls and a 20% improvement in overall product quality.
- Developed and trained personnel on quality assurance requirements in compliance with company regulations, resulting in a reduction in quality control errors and an increase in employee engagement.

Shipping & Safety Manager, Country Lane Sales, Pleasant View, UT**Jan 2018-Jun 2018**

Develop and implement shipping and safety procedures to ensure compliance with regulatory requirements and industry standards. Coordinate shipping schedules and oversee transportation of goods to minimize shipping costs and ensure timely delivery. Conduct safety inspections and train personnel on safety procedures to maintain a safe work environment.

Highlights or Key Results

- Collaborated with cross-functional teams to ensure on-time delivery of products, resulting in an increase in customer satisfaction ratings.
- Reduced errors in shipping documentation through implementation of improved processes for confirming purchase orders and documenting shipping arrangements.
- Improved safety in the facility by developing and implementing standard operating procedures (SOP) for forklift use, resulting in a reduction in safety incidents.

Additional Relevant Work History**Material Supply Associate, Cutlery & More, East Dundee, IL****Nov 2012-Dec 2017**

Manage inventory levels and coordinate material procurement to ensure timely delivery of goods. Communicate with suppliers and internal teams to resolve any supply chain issues and optimize material availability.

Highlights or Key Results

- Successfully reduced production downtime by 15% by implementing more efficient LIFO/FIFO inventory management methods.
- Led the successful completion of a cross-functional project with the Sales department, resulting in a 10% increase in customer engagement and repeat business.
