SUMMARY

Recent cybersecurity graduate with a master's degree earned with a 4.0 GPA and a bachelor's completed in three years while balancing Division 1 athletics and volunteering. Hands-on experience with core cybersecurity tools such as Nmap and Wireshark. Strong foundation in network security, vulnerability assessment, and threat analysis. Quick learner with excellent problem-solving skills and adaptability, eager to apply technical knowledge and grow in a professional cybersecurity role.

EDUCATION

Kennesaw State University, College of Computing and Software Engineering, Kennesaw, GA **August 2023 - July 2024**
Master of Science in Cybersecurity

Cumulative GPA: 4.0

Mercer University, College of Liberal Arts and Sciences, Macon, GA **August 2020 - May 2023**
Bachelor of Science in Cybersecurity, Minor in Computer Science

Cumulative GPA: 3.56

SKILLS

Security Tools: Kali Linux, Metasploit, Nmap, Wireshark, Nessus, Burp Suite, WPScan, SQLMap, John the Ripper, SIEM
Security Concepts: Risk Management, Vulnerability Assessment, Digital Forensics, Network Security, Incident Response, Penetration Testing, Access Control, Multi-Factor Authentication (2FA), Security Policy Development
Cloud & Virtual Environments: Amazon Web Services (AWS – basic), OpenStack (basic), VMware, VirtualBox
Basic Scripting & Coding Skills: Python, Bash, Java, C++, HTML, JavaScript
Operating Systems: Linux (Ubuntu, Kali), Windows 10/11, Windows Server, macOS, UNIX

RELEVANT PROJECTS

System Hardening & Offensive Security (KSU Capstone)

- Performed risk assessment and vulnerability analysis on Akwaaba's multi-location restaurant servers.
- Used tools including OpenVAS, WPScan, Nessus, Nmap, Metasploit, and Wireshark.
- Applied NIST SP 800-171r3 standards; implemented 2FA, RBAC, software updates, and password changes.
- Led tool selection and assisted in exploitation, hardening, and development of the forensic report.

Cryptographic Techniques for Secure AI Model Sharing

- Explored homomorphic encryption, multiparty computation, and differential privacy.
- Focused on secure model sharing in healthcare and insurance industries.
- Assessed privacy techniques for performance and compliance (HIPAA).
- Demonstrated practical use cases for secure AI collaboration.

CERTIFICATIONS

CompTIA Security+ SY0-701 **December 2024**
Google AI Essentials **January 2025**

EXPERIENCE

Sports Warehouse Inc. – Alpharetta, GA **May 2019 - Present**
Warehouse Associate (Level 3, Tier 3)

- Identify and correct inventory errors while troubleshooting system issues, ensuring 99%+ data accuracy across warehouse operations.

MJP Landscaping – Cumming, GA **May 2016 - August 2018**
Co-Founder and Operator

- Co-founded and managed a landscaping business, building and retaining a 100% repeat client base.
