SUMMARY

Master's graduate in Computer Science seeking entry-level roles in customer support, technical support, or business analyst. Skilled in troubleshooting user issues, managing cases, and supporting system access requests. Experienced with analyzing data in Excel, documenting processes, and improving user experience. Strong communication, problem-solving, and multitasking abilities developed through academic and support-focused roles. Actively learning Salesforce Service Cloud and enhancing technical support skills for customer-facing environments.

EDUCATION

Northeastern Illinois University
Master of Science: Computer Science

Chicago, IL
Graduation Date: May 2024

Shadan Women's College of Engineering & Technology
Bachelor of Science: Computer Science

Hyderabad, Teleangana, India
Graduation Date: Aug 2021

WORK EXPERIENCE

Northeastern Illinois University
Graduate Assistant - Data Analyst

Chicago, IL
Aug 2022 - Jan 2024

- Developed comprehensive instructional materials and facilitated over 50 live-streamed classes and recorded sessions using Zoom, resulting in a 30% increase in student engagement and comprehension during remote learning sessions.
- Provided personalized academic guidance to students through office hours, tutoring, and mentoring sessions, supporting a diverse cohort of over 50 students and improving course pass rates.
- Tracked and analyzed student performance data using Excel, providing insights to improve instructional strategies and course outcomes.
- Delivered clear instructions and documentation related to course tools, access requirements, and troubleshooting steps.
- Managed multiple systems at once during live support sessions, resolving issues in real time.

General Motors
Jr. Business Analyst

Hyderabad, India
Mar 2021 - Mar 2022

- Executed SQL queries across multiple databases to generate ad-hoc and recurring reports, delivering actionable business insights to cross-functional teams.
- Led requirements gathering and analysis through stakeholder interviews, surveys, JAD sessions, and feasibility assessments; documented Business Requirements, Functional Requirements, and UML use cases.
- Performed AS-IS/ TO-BE process mapping and Gap Analysis, partnering with production and leadership teams to identify system deficiencies and recommend process improvements aligned with strategic goals.
- Collaborated with project managers to define Project Scope, risk, timelines, and methodologies, while creating Use Case Diagrams and workflow visuals using Microsoft Visio.
- Supported QA and UAT by developing test plans and scenarios, tracking defects, conducting user training, documenting feedback, and presenting findings to management for resolution and optimization.

PROJECT EXPERIENCE

Northeastern Illinois University
Cognitive Tutoring System for Programming Students

Chicago, IL
Jan 2024 - May 2024

- Integrated real-time feedback mechanisms into the platform, enhancing instructional responsiveness which contributed to a 10-point increase in overall learner satisfaction scores.
- Conducted iterative testing and refinement, including unit testing, usability assessments, and data tracking in Excel, to ensure functionality, reliability, and an effective learning experience.
- Led iterative refinement cycles based on testing feedback, optimizing functionalities that increased overall system efficiency and supported scalable educational interventions.

Self-initiated Simulation
Workday HCM Project- Onboarding & Leave Management

Skokie, IL
Jan 2025 - Mar 2025

- **Designed and simulated end-to-end HR processes** for onboarding and leave management using PowerPoint, Lucidchart, and Excel to replicate Workday HCM functionality.
- **Built and managed structured employee data** (EmployeeID, Department, Role, Salary, LeaveBalance) with applied formulas and logic to simulate real HRIS operations.
- **Validated workflows and generated automated reports**, ensuring accuracy across onboarding, payroll integration (EIB), and leave approvals.

CERTIFICATIONS & TRAINING

- Salesforce Service Cloud Beginner Training (Self-Study)
- Workday HCM Fundamentals - Workday Learning (In progress)
- Tableau Data Visualization (In progress)
