

Nikhila M

nikhilareddy2799@gmail.com • 6206874202

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience developing scalable full-stack applications using Java, Python, Spring Boot, React, Angular, SQL, and AWS. Experienced building RESTful APIs, microservices, responsive web applications, and CI/CD pipelines in Agile environments. Skilled in system design, debugging, code reviews, unit testing, and delivering reliable, high-performance software solutions.

WORK EXPERIENCE

Fifth Third Bank • Remote

Software Engineer

Feb 2026 – Present

- Automated CI/CD pipelines using GitHub Actions and Jenkins, improving deployment reliability and release efficiency.
- Developed cloud-native Java Spring Boot microservices on AWS, supporting secure banking applications processing 2M+ monthly transactions.
- Collaborated with cross-functional Agile teams to deliver production features while maintaining 99.9% application availability.
- Built scalable RESTful APIs integrated with React and Angular frontends for secure financial applications.
- Developed Kafka-based event-driven services using Python, improving payment processing performance and reliability.

Cisco • Raleigh, NC

Software Engineer

May 2024 – Jan 2026

- Developed scalable backend services using Java and Python within a microservices architecture for cloud-based applications.
- Automated infrastructure provisioning and CI/CD pipelines using Git, cloud platforms, and DevOps best practices.
- Designed distributed microservices that reduced service response times by 30% through asynchronous messaging.
- Built responsive React and Angular components for network management dashboards while participating in code reviews and technical design discussions.
- Designed RESTful APIs handling 500K+ daily requests using relational and NoSQL databases with unit and integration testing.

Infosys • Hyderabad, Telangana

Software Engineer

May 2022 – Dec 2022

- Developed responsive UI components using React and Vue.js, enhancing user experience with JavaScript, HTML, and CSS for dynamic web applications.

- Collaborated in Agile Scrum teams, contributing to sprint planning, testing, and continuous delivery.
- Developed Java Spring Boot backend modules using microservices architecture.
- Built RESTful APIs and integrated message queues to improve application scalability.
- Optimized SQL queries and database performance using MySQL and Python.

EDUCATION

- **Bachelor of Technology, Computer Science, Jawaharlal Nehru Technological University** **Aug 2018 – Apr 2022**
- **Master of Science, Information Technology, Pittsburg State University** **Jan 2023 – May 2024**

TECHNOLOGIES

Java, Python, JavaScript, TypeScript, SQL, React, Angular, Vue.js, HTML5, CSS3, Spring Boot, Spring MVC, Spring Security, FastAPI, Flask, REST APIs, Microservices, PostgreSQL, MySQL, MongoDB, Redis, AWS, Docker, Kubernetes, Jenkins, GitHub Actions, Git, Kafka, RabbitMQ, JUnit, Mockito, PyTest, Postman, System Design, Data Structures, Algorithms, Object-Oriented Programming (OOP), Design Patterns, Distributed Systems, SDLC, Agile/Scrum, CI/CD
