SAVANNAH LAMPKIN

Technology & Operations Professional

PROFESSIONAL SUMMARY

Technology & Operations Professional with 7+ years of experience in data analytics, UX design, and IT infrastructure, passionately driving innovation and operational excellence. Expertise in automating processes, deploying scalable cloud solutions, and enhancing customer experiences, utilizing skills in Python, SQL, and Power BI. Proven track record in collaborating with cross-functional teams and implementing emerging technologies, committed to delivering measurable improvements in efficiency and compliance across finance, healthcare, and technology sectors.

EMPLOYMENT HISTORY

DATA ANALYST

May 2024 - Present

Capital One

- Automated financial reporting pipelines with Python and SQL, reducing processing times by 40%.
- Built enterprise Tableau dashboards, driving executive decision-making and profitability improvements.
- Conducted market segmentation and predictive analytics, optimizing targeted campaigns.
- Partnered with engineering teams to implement cloud-based data solutions for scalability and resilience.

UX DESIGNER

Feb 2022 - Mar 2024

AT&T

- Designed enterprise-grade web and mobile platforms, boosting engagement metrics by 30%.
- Led design thinking workshops, fostering innovation across multi-disciplinary teams.
- Delivered wireframes, prototypes, and high-fidelity mockups, ensuring development alignment.
- Executed usability and A/B testing, increasing customer satisfaction and adoption rates.

TECHNOLOGY SPECIALIST

Jul 2019 - Nov 2021

DHL IT Services

- Directed cloud migration initiatives and ERP system upgrades, improving operational performance.
- Implemented observability frameworks (Prometheus, Grafana, Splunk) to monitor enterprise systems.
- Automated deployment pipelines and system upgrades, improving release efficiency by 25%.
- Trained cross-functional teams on new tools, scripting, and infrastructure best practices.

INFORMATION TECHNOLOGY ANALYST

Mar 2018 - Oct 2021

Atlanta Tech Solutions

- Optimized IT infrastructure, delivering 30% efficiency gains across client operations.
- Strengthened cybersecurity postures, ensuring HIPAA compliance in healthcare environments.
- Managed cloud-based applications and system integrations for startups and mid-size enterprises.
- Built scalable technology frameworks enabling growth and market expansion.

EDUCATION

BACHELOR'S OF SCIENCE IN PSYCHOLOGY, GPA: 3.9/4.0

Jan 2016 - Nov 2020

Fort Valley State University

Fort Valley, GA

Coursework: Research Methods in Psychology, Abnormal Psychology, Cognitive Psychology, Human Development, Statistics for Behavioral Sciences, Social Psychology, Personality Psychology, Psychological Assessment

Coursework: SDLC, JavaScript, Python, C++, HTML, CSS, SQL, NoSQL, Git, GitHub, Software Testing, Quality Assurance, Agile & Scrum Methodologies, Cloud Computing, DevOps Fundamentals, Data Structures & Algorithms, API Integration, Software Design

SKILLS

Python, SQL, Shell Scripting, PowerShell, Bash, ERP Upgrade, Prometheus, Splunk, ELK Stack, Tableau, Power BI, Google Analytics, ETL, Oracle, Cassandra, AWS, Azure, Cloud Migrations, Control-M, Ansible, Jenkins, CI/CD Pipelines, Kafka, RabbitMQ, Figma, Adobe XD, Wireframing, Prototyping, A/B Testing, Interaction Design, SQL Server, Oracle DB, Access Control.

PROJECTS

CUSTOMER CHURN PREDICTION MODEL

- ◆ Developed a predictive analytics model to identify customers at risk of churn using SQL queries, Python machine learning libraries, and spark for large dataset processing.
- ◆ Visualized results in Tableau dashboards for leadership, enabling proactive retention strategies.

E-COMMERSE WEBSITE PROTOTYPE

- ◆ Implemented a full-stack site with React.js, Node.js, and MongoDB, integrating user authentication and shopping cart functionality for seamless online transactions.

LEADERSHIPS & AWARDS

- ◆ Mental Health Awareness Volunteer - Assisted in organizing workshops and community events promoting mental health awareness and education.
- ◆ Innovative Project Award - Recognized for creating a standout software project demonstrating creativity, technical expertise, and practical application of programming skills.
