

Prakriti Shakya

Canby Ave Los Angeles, CA 91325 | [LinkedIn](#) | (818) 357-1868 | prakritishakya1168@gmail.com

Master's student in Computer Science with a strong foundation in data engineering, cloud technologies, and computer science principles. Aspiring Database Cloud Engineering Intern skilled in Python, Java, SQL, and leveraging data to drive business insights. Proficient in cloud platforms (GCP), workflow automation, and database management, with experience using GitHub for version control across development, QA, and production environments. Passionate about optimizing data processes, developing scalable solutions, and contributing to innovative projects in dynamic environments

Skills

- **Object-Oriented Programming:** Proficient in Python and Java.
- **Database Management:** MySQL, Cloud SQL, Oracle Databases (familiar with Oracle DB architecture and management).
- **Big Data Technologies:** BigQuery.
- **Data Tools:** Informatica, TOAD, DBeaver, MS Excel.
- **Cloud Technologies:** Google Cloud Platform (GCP).
- **Data Processing:** Airflow for workflow automation. Data pipelines/ETL
- **Analysis & Querying:** Expertise in data analysis, query optimization, and translation.
- **Communication:** Strong verbal and written skills, presenting technical information to various audiences.
- **Collaborative Results:** Optimized cloud data workflows, cutting processing time by 30% and boosting accuracy by 25%.
- **Generative AI (GenAI):** Understanding and application of Generative AI models.
- **Natural Language Processing (NLP):** Experience with NLP techniques using Hugging Face and LangChain.
- **LangChain:** Expertise in using LangChain for building AI-driven applications.
- **Hugging Face:** Proficiency in leveraging Hugging Face's transformers and models for NLP tasks.

Work Experience

Tata Consultancy Services Bangalore, India

Associate Data Engineer Oct 2021-Jul 2024

- Worked in migration of on-premises data to Google Cloud Platform (GCP) for Priceline, **achieving a 100% successful transition with zero data loss or integrity issues.**
- Developed **automate ETL workflows** using **engineering principles** to develop and, improving data transformation efficiency by 30%. and **reducing manual processing time by 30%.**
- **Conducted comprehensive analysis, testing, and validation of SQL queries**, ensuring 95% accuracy and integrity, leading to a 25% reduction in data-related errors.
- Proactively identified and addressed potential security vulnerabilities during data migration, decreasing security-related incidents by 20% and enhancing overall system security.

Innoeye Software Technologies

Indore, India

Software Developer Intern

Mar 2021-Jul 2021

- **Assisted in the development of a chatbot using RASA, Python, and Java**, focusing on natural language processing and user interaction, which resulted in a 30% improvement in response accuracy and user satisfaction.
- **Contributed to the deployment and integration of the chatbot**, which led to a 25% increase in customer engagement and support efficiency by streamlining user interactions.
- **Gained hands-on experience with chatbot frameworks and AI technologies**, enhancing project development speed by 20% and contributing to the successful implementation of advanced features.

Achievements

- Google Cloud Certified Associate Cloud Engineer (Certification ID: etfcCZ)
- Represented my university in basketball at All India University (AIU) level
- Bronze medal in 100m Sprint (taluk level) Individual Championship in Sports

Education

California State University, Northridge

CA, USA

Master of Science in Computer Science

2024-2026

GPA(1st sem): 4

ITM University

MP, India

Bachelor of Technology in Computer Science and Engineering

2017 – 2021

GPA: 3.12
