(331) 301-0763

Lake Bluff, IL

Objective Statement:

- Aspiring IT and Data Analytics professional with a robust background in clinical research within Clinical setting and Medical Device Industry, currently pursuing a Master of Science in Information Technology (Data Analysis).
- Eager to leverage comprehensive skills in Data Analytics, Computer programming, Data modeling, Database design, Python (Data science), Machine and Deep learning to drive data-driven decision-making and innovative solutions.
- Seeking to transition into a dynamic role where I can apply my diverse expertise and contribute to impactful projects within a *forward-thinking organization*.

Education:

Quantum Computing Certificate (2025)

From MIT Xpro

Master's Certification:

Artificial Intelligence Engineer- (2024)

From Simplilearn Americas, Inc. San Francisco, CA.

Course details:

- Essentials of generative AI, Prompt Engineering and Chat GPT
- Programming Essentials
- Python for Data Science
- Machine learning with Python
- Deep Learning Specialization

Master of Science in Information Technology, Anticipated Graduation in 2025

Purdue Global, West Lafayette, IN

Course Details:

- Fundamentals of programming (Python)
- Research and writing for IT professionals
- Statistics for analysis
- Database design and data modeling
- Python statistical tools
- Computer networks

Masters: Health care Administration, Jul. 2016

From Kaplan University, Davenport, IA

Course Details:

- Healthcare ethics
- Healthcare Marketing
- Health information and assessment
- Healthcare operations and quality assessment
- Healthcare statistics
- Health law
- Healthcare financial management
- Human resources for healthcare management
- Leadership in healthcare
- Organizational development for healthcare.

Bachelor of Science: Health Sciences, Aug. 2013

From Kaplan University, Davenport, IA

Technical Skills:

- Programming Languages: Python, (Beginner level)
- Data Analysis Tools: Power BI (Intermediate level) Microsoft Excel, RStudio
- Data base Management tools: MySQL, Microsoft Access

Certifications in Clinical Research:

Design and Interpretation of Clinical Trials Johns Hopkins University, Baltimore, MD, Jul. 2020

- Types of Trial Designs Randomization and Masking Outcomes and Analysis Ethics Reporting Results

Clinical Research Coordinator Clinical Research Fast track, Arizona, Apr. 2020

- ICH GCP E6 R (2)
- FDA Regulations 21CFR 11, 50, 54, 56 and the common rule 45CFR46
- Data Management
- Informed consent process
- Clinical trial Operations from feasibility through close out.
- GDP following ALCOA-C principles.
- Identification and reporting of AES and SAEs.
- Quality assurance, Monitoring and Query Resolution.
- Comprehension and Execution of Clinical Trial Protocols.
- Maintaining regulatory binder, housing essential documents including but limited to 1572, DOA, Training Logs and other Investigator Site File (ISF) documents.

Professional Experience:

Abbott Laboratories, Lake Forest, IL Aug. 2025 – Present

Data Coordinator

Abbott Laboratories, Lake Forest, IL Aug. 2022 - Aug. 2024

Clinical Research Associate (CRA) - B

- Conducted site visits to ensure adherence to protocol and regulatory standards.
- Monitored clinical trials either on-site or remotely as required.
- Verified data accuracy and integrity by regularly reviewing case report forms (CRFs) and source documents.
- Maintained comprehensive knowledge of FDA regulations and Good Clinical Practice (GCP) guidelines, ensuring all clinical activities complied with these standards.
- Participated in the development and review of protocols.
- Developed and initiated study sites, ensuring all required documents and approvals were obtained.
- Addressed and resolved any issues regarding data that arose during the study.
- Prepared and maintained accurate study reports.
- Ensured timely submission of monitoring visit reports.
- Tracked study progress and reported any deviations or issues to the study team.
- Assisted visit to investigational sites as needed, with travel requirements ranging from 20 -40%, ensuring efficient and cost-effective travel plans.
- Collaborated closely with study-related teams.
- Worked with study coordinators and other site staff to ensure smooth study execution.
- Stayed updated with developments in clinical research, FDA regulations, and industry best practices.
- Participated in training sessions and workshops to enhance skills and knowledge.

Rush University Medical Center, RUMC Chicago, IL Aug. 2021 - Jul. 2022

Clinical Research Coordinator

- Screened patient records, databases and physician referrals to identify prospective candidates for research studies.
- Collected data and followed research protocols, operations manuals and case report form requirements.
- Coordinated clinical trials focused on disorders such as Malignancy in Lung, Breast, GI, GU, Melanoma, Sarcoma and Head and Neck.
- Worked with principal investigator and sponsors to facilitate daily trial activities and comply with research protocols.
- Maintained compliance with protocols covering patient care and clinical trial operations.
- Gathered, processed and shipped lab specimens.
- Participated in initiation visits and investigator meetings, implementing trials in accordance with study timelines and budgets.
- Followed informed consent processes and maintained records.
- Developed and maintained courteous and effective working relationships.
- Proved successful working within tight deadlines and fast-paced atmosphere.
- Exceeded goals through effective task prioritization and great work ethic.

- Maintained excellent attendance record, consistently arriving to work on time.
- Improved operations through consistent hard work and dedication.

Midwest Orthopedics at Rush University Chicago, IL Jan. 2021 - Jun. 2021

Clinical Research Coordinator

- Screen and enroll study participants.
- Obtain informed consent and review of medical histories.
- Verify eligibility criteria of subjects Collect accurate, verifiable clinical data and outcome scores.
- Coordinate and schedule study-related visits, procedures, and measurements.
- Ensure compliance with the study protocols, and applicable policies, regulations, and guidelines.
- Participate and prepare for monitoring visits Interact with investigators, clinical and research staff.
- Data collection, documentation, and data entry.
- Maintain study documents and case report forms.
- Record and track adverse events.
- Responsible for ensuring study is compliance with local and federal laws and regulations.
- Recruits and screens potential study participants and perform intake assessments.
- Creates and/or maintains all documents and records related to the study.
- Acts as a point of reference for study participants by answering questions and keeping them informed on the study progress.
- Manages the inventory of equipment and supplies related to the study and orders more as needed.
- Attends meetings, events and seminars to promote the study.
- Collects specimens and inputs data and patient information into electronic systems.
- Creates reports on each study, including notes on protocols, workload, data collection, and more.

DuPage High School District 88 Addison, IL Aug. 2018 - Apr. 2021

Substitute Teacher

- Adhere to the curriculum and lesson plans assigned by the regular teacher.
- Follow procedures and achieve lesson goals.
- Assign and explain homework.
- Kept students on-task with proactive behavior modification and positive reinforcement strategies.
- Enhanced student learning by optimizing wide range of instructional approaches and innovative classroom activities.
- Administered standardized assessments with strict requirements and documented information in permanent records.
- Oversee students outside of the classroom including in the hallways and cafeteria.
- Comply with all school regulations and policies at all times.
- Take attendance and document daily notes.
- Ensure classroom and work is kept clean and orderly.
- Oversee the normal classroom rhythms and activities.
- Compile a report for the teacher for when he/she returns.

Illinois Bone and Joint Institute Libertyville, IL Oct. 2020 - Mar. 2021

Clinical Research Coordinator

- Screen and enroll study participants.
- Obtain informed consent and review of medical histories.
- Verify eligibility criteria of subjects Collect accurate, verifiable clinical data and outcome scores.
- Coordinate and schedule study-related visits, procedures and measurements.
- Ensure compliance with the study protocols, and applicable policies, regulations and guidelines.
- Participate and prepare for monitoring visits Interact with investigators, clinical and research staff.
- Data collection, documentation, and data entry.
- Maintain study documents and case report forms.
- Record and track adverse events.
- Responsible for ensuring study is compliance with local and federal laws and regulations.
- Recruits and screens potential study participants and perform intake assessments.
- Creates and/or maintains all documents and records related to the study.
- Acts as a point of reference for study participants by answering questions and keeping them informed on the study progress.
- Manages the inventory of equipment and supplies related to the study and orders more as needed.
- Attends meetings, events and seminars to promote the study.
- Collects specimens and inputs data and patient information into electronic systems.
- Creates reports on each study, including notes on protocols, workload, data collection, and more.

Volunteer Experience:

Tahir Academy Sunday School Glen Ellyn, IL Sept. 2017 - Apr. 2020

Served as Principal

- Strategic direction in the school system.
- Develop standardized curricula and assess teaching methods.
- Monitor student achievement and encourage parent involvement.
- Revise policies and procedures.
- Administer the budget.
- Hire, evaluate, and oversee staff.
