Summary

Business Analyst with 4+ years of experience in translating stakeholder requirements into data-driven process improvements using SQL, Excel, Power BI, and Agile.

Education

MS in Business Analytics from Arizona State University, Tempe, AZ Graduated

Work Experience

Operations Analyst at DoorDash, Inc., Tempe, AZ 07/2025 to 04/2026

- Acted as a liaison between technical and non-technical stakeholders to gather requirements and analyzed operational data using SQL (joins, CTEs, windows) to identify critical workflow pain points.
- Improved ticket resolution efficiency by conducting root cause analysis across Jira, Salesforce CRM, and AWS Cloud Connect Console, and tracked KPIs to eliminate bottlenecks in business operations.
- Built live self-serve Excel (Pivots, Lookups) and Power BI (DAX, Measures) dashboards, and leveraged Claude AI to automate report generation to accelerate decision-making for cross-functional teams.
- Documented BRDs, User Stories, and acceptance criteria, and presented Lucidchart process maps to stakeholders to support communication during Agile sprints, boosting team alignment and sprint delivery.
- Managed **concurrent project priorities** and stakeholder demands, and conducted **QA reviews** on reporting accuracy and data deliverables to ensure on-time and on-budget delivery within SLAs.

Research Analyst at Arizona State University, Tempe, AZ 02/2025 to 07/2025

- Gathered requirements with research stakeholders to define learning metrics, documented findings in **BRDs**, and led **UAT** sessions across the **SDLC** to validate the learning module efficiency.
- Used **SQL (Aggregates, joins, and CTEs)** and **Python (Pandas)** for **A/B testing** and drop-off analysis, and delivered data-driven insights that improved concept mastery by 30%.
- Built and deployed a live self-serve **Tableau (Calculated Fields, Measures)** dashboard to track user activity and enabled real-time reporting on learner engagement trends.
- Translated learner engagement data into **Excel (Pivots, Lookups)** reports and **PowerPoint** presentations, establishing a continuous process improvement feedback loop with cross-functional teams.

Senior Business Analyst at Vozo Health, Chennai, India 01/2022 to 06/2023

- Authored **RFP** specifications and business requirement documents and translated clinician workflows into process maps that reduced bottlenecks and increased **EHR** adoption by 28%.
- Queried **Amazon Redshift** using **SQL (joins, aggregates, CTEs)** to uncover workflow bottlenecks and built **Power BI (DAX, Measures)** dashboards for non-technical stakeholders to support data-driven decision-making.
- Led **UAT** and **Agile** sprint planning across the **SDLC** in **Jira**, aligned roadmap priorities, and ensured **HIPAA**-compliant reporting and compliance during **EHR** feature rollouts.
- Prepared **feasibility studies** and project documentation, tracking staff time and deliverables to ensure on-time, on-budget reporting for stakeholder review.

Business Analyst at Vozo Health, Chennai, India

08/2021 to 12/2021

- Conducted requirements gathering with clinicians to identify **EHR** workflow pain points, documented findings in **BRDs** and **FRDs**, and tracked tasks in **Confluence** for feature development alignment.
- Performed root cause analysis on clinical records using **SQL**, generating reporting insights that supported audit readiness and data integrity.
- Authored **HIPAA**-compliant **SOPs** and **BRDs** for reporting workflows, presenting findings via **Excel and Power BI (DAX, Measures)** dashboards to reduce risk and enable data-driven decisions.
- Identified operational bottlenecks and process improvement opportunities, presented data-driven findings to C-suite executives to drive operational efficiency across cross-functional teams.

Skills

Data & Analytics: SQL, Python (Pandas), Excel (Pivots, Lookups), Power BI (DAX, Measures), Tableau, Snowflake, Amazon Redshift, Looker Studio

Business Analysis: BRDs, FRDs, SOPs, RFP, User Stories, Acceptance Criteria, Process Mapping (Lucidchart)

Project & Stakeholder Management: Agile/Scrum, SDLC, UAT, Jira, Confluence, Salesforce CRM, Roadmap Planning

Other: HIPAA Compliance, AWS Cloud Connect Console, PowerPoint, Claude AI
