

Shehna Khalid

Data Analytics | Data Enthusiast

Philadelphia, PA – 19406 | khalidshehna@gmail.com | 832-860-6653 | [LinkedIn](#)

Professional Summary

- **Data Analyst** with strong business acumen in myriad domains ranging from Healthcare and Insurance.
- **1+** years of experience in service delivery of class leading Data solutions.
- Expertise in **data analytics** with data munging, cleansing, predictive modeling and visualizations on custom code and BI tools.
- **SQL Gold Badge** Awardee by **HackerRank**.

Education

University of Houston: **Bachelor of Science – Nutrition Sciences (Major in Public health) | GPA 3.7**

May 2023

Technical Skills

Tools/App Suites: SQL Developer, Microsoft Excel, MS PowerPoint

Visualization: Tableau, MS Excel, Looker

Languages: SQL, Python

Databases: MySQL, PostgreSQL, SQL Server, Google BigQuery, Snowflake

Relevant Work Experience

Healthcare Data Analyst | Knowtion Health (*Relocated due to marriage*)

September 2023 – November 2024

- Utilized **Google BigQuery** to analyze **claims data** for over 3 million insurance policies, optimizing data pipelines and claim processing workflows, **resulting in a 25% reduction in processing time**
- Developed and maintained a **Tableau** based demographic dashboard across **Medicare, Medicaid, and Commercial business lines**, analyzing data by race/ethnicity, language, gender, and RUCA codes, which **reduced reporting time by 40% and provided actionable insights** for strategic decision-making
- Leveraged **Advanced Excel (Power Query, Pivot Tables, and VBA)** to automate **claims reconciliation and provider payment audits**, reducing manual effort by **30%** and improving data accuracy for financial teams
- Collaborated with **cross-functional teams** (finance, clinical, IT) to conduct ad-hoc analyses using Google BigQuery to identify key business opportunities, **resulting in a 12% reduction in provider reimbursement discrepancies** and enhanced financial accuracy

Jr. Data Analyst Intern | Specialty Dental Brands

May 2022 – August 2022

- Employed SQL and Tableau to develop visualizations and over 15 key performance indicators (KPIs) related to various aspects of departmental operations
- Managed large datasets containing over a million observations using regular expressions and selected key variables to construct statistical models
- Contributed to the creation and optimization of a data warehouse for the storage, processing, and analysis of large volumes of structured and unstructured data from 26 different systems

Undergraduate Research Assistant | UH Safety Learning Lab

August 2019 – December 2021

- Aggregated, cleaned, and performed high-level analysis using Excel on several large clinical datasets with 50+ variables to identify potential improvements in neonatal transport
- Executed a variety of tasks including dataset cleaning and entry, providing ad-hoc data analysis, and analysis on economic issues related to neonatal transport
- Developed project plans, estimated resource requirements, established timelines, tracked project lifecycle, & mentored a team of 3-4 new students ensuring excellent project delivery

Achievements

- Recognized as **Member of Star Team Award** from Team Lead for performing and working on new challenges and completing work before deadline
