

Shreyashi Mukhopadhyay

DATA ANALYST

Atlanta, GA • 770-330-3843 • shreymukh2014@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

Results oriented Data Analyst with 7+ years of experience transforming complex datasets into actionable insights, dashboards, and reporting solutions that support strategic decision-making. Proven ability to manage analytics projects end-to-end, including requirements gathering, data preparation, data modeling, visualization, and executive-level delivery. Skilled in SQL, ETL, data modeling, Python/R, statistical analysis, machine learning, time-series forecasting and building sustainable and automated reports and dashboards with PowerBI. Proven expertise in improving reporting processes, strengthening data quality, and communicating insights clearly to technical and non-technical stakeholders.

TECHNICAL SKILLS

Microsoft 365 -- Teams, SharePoint, OneDrive, Outlook, Power Automate, Power Apps, Power BI Service

Programming & Querying — Python, R, SQL (advanced), DAX, M / Power Query

Data Visualization & BI — Power BI, Tableau, Microsoft Excel

Data Modeling & ETL — ETL/ELT, Power Query, star-schema & semantic models, data warehousing, data pipelines

Cloud & Big Data — Azure Data Lake, Databricks (Delta Lake, medallion architecture), PySpark

Statistics & Machine Learning — Regression, classification, clustering (K-Means, KNN), Decision Trees, Random Forest, XGBoost, CatBoost, AdaBoost, SVM, hypothesis testing, predictive modeling, model validation

Forecasting & Time Series — ARIMA, SARIMA, Facebook Prophet

Gen AI & NLP — Sentiment Analysis, Topic Modeling, Text Classification, Text Generation, Text Summarization, OCR Extraction using LSTMs, Bi-LSTMs, GRUs, and LLMs like Transformers, BERT, BART, GPT-3, GPT-3.5, GPT-4, GPT-4o, LLaMA, Gemini, Vector stores - FAISS, Chroma DB.

Databases — MySQL, PostgreSQL, MS SQL Server

Tools & Version Control — GitHub, Bitbucket, VS Code, PyCharm, Streamlit

PROFESSIONAL EXPERIENCE

Hartsfield-Jackson Atlanta International Airport

Atlanta, GA

BI Engineer | Power BI, Azure, Databricks, Python, PySpark, SQL, DAX

Jun 2025 – Jun 2026

- Led end-to-end delivery of enterprise Power BI dashboards — including the GM Executive Dashboard, FIFA Dashboard, ATL Sustainability Dashboard and Technology & Digital Experience Dashboard suite — using custom M Query, optimized semantic and star-schema models, DAX-driven KPIs, drill-through analytics, conditional formatting, and Row-Level Security.
- Built interactive Power BI dashboards powered by direct API connections to SharePoint, Monday.com, Databricks, SolarWinds, RGNETS, Cloudflare, Qualys, ServiceNow, VMWare, Samsara, Tadera etc. enterprise operational systems and APIs, consolidating data from multiple platforms into real-time reporting.
- Contributed to a Databricks project that was built on an Azure Data Lake, integrating data from Aerobahn, Xovis, Oracle, and ATL.com to deliver analysis-ready datasets for Power BI reporting.
- Engineered Power BI Service datasets with Dataflows Gen1, scheduled refresh pipelines, created Power Apps and Power Automate flows to automate workflows within the Microsoft ecosystem, keeping dashboards current and reducing manual reporting effort.
- Established data-visualization and analytics best practices and presented findings to both technical and non-technical stakeholders across the enterprise.

Novelis – R&D Ecosystems

Atlanta, GA

Data Analyst Intern | Power BI, Python, SQL, DAX

May 2024 – Jul 2024

- Designed and deployed a suite of interactive Power BI dashboards for R&D Ecosystems and Quality, improving reporting efficiency by up to 80% and giving stakeholders real-time access to critical performance metrics.
- Automated data integration across SharePoint, SAP, COUPA, Salesforce, Databricks, and MySQL by building advanced data models for seamless, consistent data flow.

- Implemented SQL-based ETL (joins, subqueries, unions) and Power Query transformations, developing DAX-driven models that enabled cross-departmental, data-driven decision-making.

Epsilon

Data Analyst | Consumer & Retail Analytics, Python, SQL, NLP, Epsilon People Cloud

Irving, TX (Remote)

Oct 2017 – Jun 2019

- Engineered raw data into analysis-ready datasets for customer segmentation and market analysis, executing ETL on 2M+ customer records and improving data quality across Epsilon PeopleCloud and CDP.
- Applied Python (Pandas, NumPy, scikit-learn) regression and classification models (linear regression, decision trees, random forests), reducing error metrics ~20% and boosting predictive accuracy ~30% with Epsilon's Core Identity.
- Developed interactive KPI dashboards in Epsilon PeopleCloud for real-time monitoring, driving a 40% faster reporting turnaround and improved decision-making.

E2open (Steelwedge EPPM)

Data Analyst | Supply Chain Analytics, MS Excel, SQL Server

Hyderabad, India

Jun 2007 – Jul 2009

- Supported demand planning and forecasting solutions for clients including HP, NVIDIA, and Juniper Networks, improving forecast accuracy ~30% and optimizing inventory management and operational efficiency.
- Gathered and documented requirements, business rules, and implementation details with business, management, and IT stakeholders, improving project efficiency ~30% through thorough stakeholder analysis and clear communication.
- Authored functional specifications, BRDs, user stories, and process flows plus robust test plans, ensuring 99% data integrity; led UAT and reduced critical defects ~20% while achieving 95% alignment between business needs and technical solutions.

International Institute for Population Sciences

Research Data Analyst | MS Excel, SQL Server, SPSS, STATA

Mumbai, India

Jan 2005 – Dec 2006

- Analyzed records from 10,000+ households, improving data accuracy ~50% through rigorous validation and quality checks for the WHO / Ministry of Health & Family Welfare and NFHS-3 projects.
- Used Excel, SQL, SPSS, and STATA to conduct regression analysis and hypothesis testing, generating reports and visualizations that delivered actionable insights to stakeholders.
- Collaborated across interdisciplinary teams to interpret findings, contributing to high stakeholder satisfaction and repeat project funding.

Nielsen India

Data Analyst | Consumer & Retail Analytics, MS Excel, SQL, RAPS

Vadodara, India

Jan 2003 – Dec 2004

- Analyzed consumer behavior on the Nielsen CDP for CPG/FMCG clients, conducting monthly syndicated analysis that contributed to a 15% increase in sales volume and a 20% improvement in customer engagement.
- Performed trend and time-series analysis, identifying anomalies and ensuring accuracy through quality checks and RAPS validation while managing the supermarket database and Field Management Information System (FMIS).
- Delivered customized post-delivery research and data-driven insights to support client decision-making, resolving issues through collaborative data validation and quality control.

EDUCATION

Georgia State University – J. Mack Robinson College of Business

M.S., Data Science & Analytics | Aug 2024

Atlanta, GA

Gujarat University – University School of Sciences

M.Sc., Statistics

Ahmedabad, India

CERTIFICATIONS

- Georgia Tech Data Science & Analytics Bootcamp (Aug 2019 – Feb 2020)
- Databricks: Fundamentals; Generative AI Fundamentals; Getting Started with Lakehouse Architecture
