

SHRUTANVI DATAR

DATA ANALYST

San Jose, USA | [LinkedIn](#) | +1 (919) 909-8961 | shrutanvid@gmail.com

Data Analyst and Business Analyst with over 5+ years of experience transforming complex datasets into strategic insights that drive business growth. SQL, Python, Tableau, and Power BI, with a strong focus on data visualization, statistical analysis, and automation. Experienced in gathering and documenting business requirements, creating BRDs and FRDs Documents, and conducting gap analysis to identify opportunities for improvement. Skilled in developing ETL pipelines and leveraging advanced analytics techniques to enhance data-driven decision-making. collaborating effectively across teams to implement data improvements, optimize processes, and maintain high standards of data integrity.

WORK EXPERIENCE

Kushmanda Tech Data Analyst

United States
Feb 2024 – Current

- Developed and deployed interactive Power BI integrating data from multiple sources to improve accessibility and using DAX functions for custom calculations and automated visual updates, reducing reporting time by 30%.
- Conducted data wrangling and transformation using SQL, optimizing complex joins and stored procedures to streamline data extraction, reducing processing time by 20%.
- Designed and optimized ETL workflows using Hadoop for data ingestion, storage, and transformation, improving data retrieval speeds and enabling big data processing capabilities.
- Automated data validation and report generation using Python (Pandas, NumPy), standardising daily reporting and reducing manual input by 40% while ensuring data accuracy.
- Leveraged statistical techniques regression analysis and hypothesis testing within Python (Scikit-Learn, StatsModels) to inform predictive analytics models, increasing forecast accuracy and enhancing risk management.
- Conducted predictive modeling and machine learning implementations using R and Python (Scikit-Learn, XGBoost), achieving a 20% improvement in demand forecasting and marketing optimization.
- Presented analytical findings using Power BI storytelling features and visualizations to drive targeted strategies, contributing to a 30% uplift in marketing campaign ROI.

Visible Alpha Data Scientists

India
Oct 2018 – Dec 2021

- Transformed an ETL pipeline using SQL Server and Excel, processing over 500,000 customer records to extract actionable insights for predictive analytics focused on churn reduction.
- Devised a sales forecasting model utilizing time series and regression techniques, resulting in a 15% increase in prediction accuracy and significantly enhancing inventory management.
- Orchestrated a data integration project involving JSON, CSV, and Excel formats, reducing data inconsistencies by 30% and improving the quality of model inputs.
- Constructed a fraud detection system employing classification algorithms (Logistic Regression, SVM), achieving 92% model accuracy and reducing false positives by 20%.
- Synthesized data from both structured and unstructured sources into Hadoop HDFS, enhancing query speeds by 25% through optimized data architecture.
- Formulated advanced exploratory data analysis (EDA) processes using Seaborn and Matplotlib to uncover trends in sales data, resulting in a 10% increase in monthly revenue due to refined pricing strategies.
- Instituted data validation scripts in SQL to automate the validation of data imports, decreasing error rates by 35% and enhancing data accuracy for reporting purposes.
- Pioneered interactive dashboards in Tableau for real-time tracking of regional product performance, empowering sales teams to adjust strategies and improve efficiency.

Morningstar Inc Business Analyst

India
Feb 2017 – Oct 2018

- Facilitated requirements gathering with stakeholders through structured workshops and interviews, resulting in comprehensive BRDs and FRDs that enhanced project alignment and increased stakeholder satisfaction by 30%.
- Utilized process modeling techniques, including BPMN and Microsoft Visio, to map current business processes, identify inefficiencies, and achieve a 25% reduction in processing times for key workflows.
- Conducted gap analysis and cost-benefit assessments to evaluate existing systems and recommend enhancements, leading to a 15% increase in operational efficiency.
- Developed and executed complex SQL queries for data extraction, transformation, and loading (ETL) processes, improving data accuracy for financial reporting by 20% and enabling real-time decision-making.
- Created interactive dashboards in Power BI to visualize key performance indicators (KPIs), providing actionable insights that contributed to a 10% improvement in performance tracking effectiveness.
- Implemented cloud solutions using Microsoft Azure and AWS, enhancing data accessibility and collaboration among cross-functional teams, resulting in a 15% improvement in project completion times.
- Assisted in User Acceptance Testing (UAT) to validate system functionalities against business requirements, achieving a 20% reduction in post-launch defects and improving user satisfaction.

SKILLS

Data Analysis & Statistical Methods: A/B Testing, Regression Analysis, Hypothesis Testing, Data Mining, Predictive Modeling, Scikit-Learn, StatsModels, JMP

Programming & Scripting: Python (Pandas, NumPy, Matplotlib, Seaborn), SQL (Joins, Stored Procedures), R, SAS

Data Visualization & Reporting: Power BI (DAX, Report Automation), Tableau (Calculated Fields, Storytelling)

Data Processing & ETL: Hadoop, Spark, Informatica, Talend, Python ETL Pipelines

Data Warehousing & Integration: Data Integration, Data Wrangling, Data Cleaning, Data Governance

Business Intelligence & KPI Reporting: Power BI, Tableau, Smartsheet, BI Dashboards

Documentation: BRDs, FRDs, User Stories, Use Case Diagrams

Process Modeling: BPMN, Microsoft Visio, Flowcharting Tools

Analysis Techniques: Gap Analysis, Cost-Benefit Assessments, SWOT Analysis, Root Cause Analysis

Testing & Validation: User Acceptance Testing (UAT), System Integration Testing (SIT), Process Flow Diagrams

Data Management: SQL Queries, Data Processing, ETL Processes, Data Quality Management

Collaboration & Communication: Agile Methodologies, Scrum Framework, Stakeholder Engagement, Workshops, Interviews

Other Tools: MS Excel (Macros, VLOOKUP, PivotTables), Smartsheet, Project Libre

EDUCATION

Santa Clara University Master Business Analytics

USA
Sep 2022 – Dec 2023

Mumbai University Bachelors of Business Administration

India
Jun 2015 – May 2017
