Motivated and results-driven Data Analyst with a robust foundation in data analysis, visualization, and CRM solutions—including extensive experience with Dynamics 365 CE. Proven ability to collect, model, analyze, and visualize data to support business strategy and drive operational efficiency. Adept at leveraging tools such as Power BI, Python, and web scraping techniques to generate actionable insights and comprehensive reports. Demonstrates strong trend analysis skills and a talent for working cross-functionally with stakeholders to optimize business processes. Possesses a solid STEM background, further strengthened by certifications in Data Analysis and Power BI. Committed to continuous learning and utilizing technology to solve complex business challenges.
