

# SRIRAM PULI HEMANTH KUMAR

Bloomington, IN, USA | +1 (812) 778-0791 | sriramph9812@gmail.com | www.sriramph.com | www.linkedin.com/in/sriram-ph/

## EDUCATION

**Indiana University Bloomington** | Bloomington, IN

May 2025

*Master of Science in Human Computer Interaction*

**Anna University** | Chennai, India

May 2020

*Bachelor of Engineering in Computer Science and Engineering*

## WORK EXPERIENCE

**Marketeq Digital Inc.** | Miami, FL

August 2024 - November 2024

*UX Research and Design Intern*

- Audited 100+ project planning platforms to identify UX patterns and micro-interactions that directly influenced the design of a Gantt chart tool, which resulted in a 25% improvement in feature adoption during early user testing.
- Delivered high-fidelity interactive prototypes to streamline task creation and real-time cost estimation, which effort reduced the risk of budget overruns by ensuring cost auto-calculations and simplified resource allocation for PMs.
- Improved team scalability and workflow for a 30+ person design organization by establishing a definitive design token and documentation system in Figma, successfully reducing redundant design effort and improving overall delivery speed by 20%.
- Streamlined the design feedback loop in an Agile environment by presenting iterations at sprint reviews and synthesizing both qualitative research and stakeholder input to drive UX decisions, resulting in a 15% reduction in iteration time.

**Zoho Corporation** | Chennai, India

January 2021 - January 2023

*User Interface Designer*

- Partnered with designers, engineers, product owners, and leadership to design and ship multi-platform interfaces (iOS, iPadOS, macOS, tvOS) for Zoho Show, delivering B2B SaaS and enterprise solutions that improved performance by 55% through a scalable design system aligned with strategic business objectives.
- Defined and documented visual states for the design system's components, ensuring pixel-perfect fidelity and brand consistency via governed design tokens, which reduced engineering handoff friction by 40%.
- Led the design of performance-optimized video filters that significantly increased real-time streaming speed, improving efficiency to enable smoother cross-team communication for a user base of 1M+.
- Spearheaded a ground-up redesign initiative for a graphic design tool, conducting a full accessibility audit to drive an 80% improvement in WCAG 2.0+ compliance across all interaction patterns.

**Campus Avenue** | Chennai, India

October 2019 - June 2020

*User Experience Designer Intern*

- Led end-to-end UX/UI strategy for an EduTech mobile application in a fast-paced startup environment, using iterative usability testing and rapid research cycles to validate key features, accelerating project velocity by 1.5x.
- Systematized stakeholder alignment across a 10+ person cross-functional team by providing multi-fidelity prototypes, which streamlined the design review process and cut feature iteration time by 40%.
- Translated core product features into compelling narratives by designing and producing 15+ high-impact video presentations for client pitches, directly contributing to a 60% growth in the company's client base.

## PROJECTS

**Salesforce – Cloud Marketing Solutions** | Chicago, IL

January 2024 - May 2024

*User Experience Designer*

- Defined the foundational product strategy for a novel AI tool by conducting research into the ethical and social feasibility of large-scale AI deployment in enterprise marketing.
- Designed an effective solution using Lightning Design System that leverages AI to help marketing executives build personalized and relevant campaigns while upholding ethical standards.
- Prototyped and validated production-ready content acceleration features that leverage AI insights to optimize marketer efficiency in experimentation, aggregation, and performance reporting.

## SKILLS

**Design:** User Interface Design, Storyboarding, Wireframing, Prototyping, Visual Design, Information Architecture, Graphic Design, Accessibility Testing, Design Systems

**Research:** User Surveys and Interviews, Contextual Inquiry, Cooperative Design, Usability Testing, Affinity Mapping, Data Analysis, A/B Testing, Focus Groups, Field Studies, Card Sorting

**Software:** Figma, Sketch, Adobe Creative Suite, Final Cut Pro X, Axure, Blender, MS Office, Miro, Framer, Keynote, Wix, Google Analytics, Unity, Slack, Qualtrics, Loveable, Cursor, Replit, Dovetail, Airtable

**Development:** HTML, CSS, JavaScript, NextJS, React, Tailwind
