PROFESSIONAL EXPERIENCE

NYC Traumatic Brain Injury Center

Psychometrist

Brooklyn, NY

Nov 2024 – May 2025

- Administered and scored standardized cognitive assessments to patients in preferred languages, leading to a 30% increase in patient satisfaction and assessment accuracy ensuring culturally relevant evaluations
- Reduced doctor review time by up to 30 minutes by efficiently scoring and summarizing patient results both oral and written, enabling double the amount of patients to be seen every day and improving overall clinic efficiency
- Managed testing and behavioral assessments for multiple patients simultaneously, fostering clear communication with doctors and patients, reducing patient wait times by 40% and adapting quickly to various tasks and individuals in the clinic
- Verified all patients insurance before appointments as well as submitted worker compensation claims to ensure patients treatment plans were eligible to be seen and coordinated with patients pending legal cases

MedinaBuilt LLC

Administrative Assistant

Remote

Apr 2024 – Nov 2024

- Coordinated several bids and customer communications for company management through phone, email, and text increasing the amount of leads for contractors by 40% and ensuring continuous work for the company
- Scheduled and booked lead visits for contractors and company management to determine rates of projects and materials needed as well as timeline of project if accepted contributing to 20% faster response rate for clients
- Created and edited 6+ estimates and proposals for clients each week to review spellcheck, grammar, and overall professional coherency ensuring proper rates, job duties, and timelines are all agreed upon by both parties

LEADERSHIP & OTHER ACTIVITIES

CO-OP Careers, Data Analytics Fellow – New York, NY

Feb 2025 – Jun 2025

- Engaged in a 16-week fellowship program, acquiring expertise in data cleaning, transformation, analysis, and visualization using SQL, Excel, and Tableau, alongside continuous professional development
- Completed 200 hours of instruction time with a hands-on mastery of data tools, communication training, networking, and client work with actual companies
- A highly selective program that admits competitive college graduates from marginalized and under-representative communities in tech and data analytics

ACADEMIC PROJECTS & PROGRAMS

COOP Marketing Analysis Project, Audience Analyst – New York, NY

May 2025 – Jun 2025

- As an audience analyst, my role was to analyze metrics pertaining to audience members ad interactions and provide budget recommendations and strategies for the next quarter
- Utilized Excel functions and pivot tables to analyze demographics such as age, gender, parental and college graduate status to determine KPI's; CTR and CPA, which were used to create 'audience personas' for an in-depth look into audience segments
- Created and presented data visualizations through Tableau which helped highlight key audience segments for our stakeholders and supported budget suggestions leading to potential higher payoff in the future

Baruch College, REU Fellow – New York, NY

Aug 2023 – May 2024

- Conducted statistical analysis on 200+ student responses identifying key decor trends regarding background decor influence on perceived hireability towards women in STEM fields
- Developed and submitted a 12-page IRB proposal for online data collection through Qualtrics designing a personalized survey embedded with four manipulated videos to analyze the effect of study factors on participants responses
- Collaborated with REU fellows to determine and resolve any incidents regarding the study layout or data collection process, leading to a more cohesive study for participants to complete and a more constructive working environment between fellows
- Earned the Andreassi Poster Award for presenting the best poster at the 2024 Spring Research Expo recognized for outstanding research presentation and impactful findings in IO psychology
